# LIGHT

Light up the night and charge devices with innovative solar lanterns and phone chargers from LuminAID. These portable lanterns provide light and power for camping, emergency preparedness, and humanitarian aid. We've expanded the collection in 2024 with new solar lighting designs in unique shapes to brighten and enhance outdoor adventures.

## SOLAR INFLATABLE LANTERNS:

- ✓ Lightweight
- ✓ Collapse Down to Less <1.5in
- ✓ No Batteries Needed
- ✓ High-Efficiency Solar Panel
- ✓ USB Charging Port
- ✓ Phone Charger  
(on Select Models)
- ✓ Multi-Colored LEDs  
(on Select Models)

Since 2010, LuminAID has focused on innovative, lightweight, and sustainable lighting & power solutions. Andrea and Anna developed their first inflatable, solar-powered lantern in response to the humanitarian needs of the Haiti Earthquake. Today, LuminAID is dedicated to providing disaster relief aid and empowering outdoor consumers.

## Give Light Get Light

The Get Light Give Light program provides light to families in need for rescue, relief, and recovery in unstable environments. LuminAID lights sponsored for disaster and refugee relief will be sent to partner organizations and distributed to those in need to illuminate shelters, contact loved ones and provide safety.

# SURVIVAL

Building on the popularity of our industry-leading emergency shelter category, we're excited to expand the Survive Outdoors Longer offering in 2024 with innovative new additions and improvements to our best-selling Escape program. Now more than ever, you'll be empowered to pack more than luck on every adventure.

## NEW ESCAPE INSULATED PROGRAM

SOL's brand new Escape Insulated program takes the heat reflectivity and breathability of our industry-leading Escape product line and ups the ante with innovative Primaloft™ Silver Insulation in three supercharged new products - the Escape Insulated Poncho, Blanket, and Trail Seat. With durable and uniquely breathable weatherproof Tyvek exteriors and loaded with Primaloft Silver Insulation made from 100% PCR bottles, the Escape Insulated line brings the heat with 70% thermal heat reflectivity and protection from the elements (and the cold ground) when you need it most.

### Advanced Insulation

Features Primaloft® Insulation which translates to better heat trapping and less bulk.

### Escape™ Insulated Poncho

ITEM: 0140-2003

## SPORT UTILITY

Bridging the gap between SOL's best-selling Emergency and Escape series, our innovative new Sport Utility fabric pairs heat-reflective technology and lightweight durability in the new Sport Utility Blanket and Poncho.

Fully waterproof and wind resistant with a metallized interior that reflects up to 80% of thermal body heat, the Sport Utility Blanket and Poncho will keep you warm and dry in all conditions. Loaded with additional features - like integrated metal grommets for building an emergency survival shelter - this durable, versatile material is truly multi-functional and ready for anything.

**NEW**

### Sport Utility Blanket

ITEM: 0140-1198

#### Features

Lightweight wind and waterproof material provides protection from the elements

Metallized interior reflects up to 80% of body heat

4 integrated metal grommets enables conversion to emergency shelter

Built-in shoulder clasp allows for hands-free use as a cape

Durable, multi-purpose material functions as a blanket, ground tarp, gear cover, tarp tent, and lean-to shelter.

Packs down small into stuff sack (includes tinder cord with rescue whistle)

**NEW**

### Sport Utility Poncho

ITEM: 0140-1199

- Weight 254g
- Fits 1 Adult
- Tinder Cord Stuff Sack Lanyard with Rescue Whistle

## Emergency Blankets

The SOL Emergency Blanket collection provides the lightest shelter options with the greatest thermal reflectivity. The material's silver lining provides 90% thermal heat reflectivity while also providing protection from wind, rain, and snow.

The bestselling SOL Emergency Blanket weighs less than 85g and is large enough to wrap around yourself, while the XL can fit 2 people. The Heavy Duty Emergency Blanket XL's design is enough to wrap around 2 people and withstand harsh, rocky environments as a blanket, shelter, ground cover, and more. SOL Emergency Blankets are a leading collection of ultralight multifunctional backcountry tools favored by pros and guides.

### Emergency Blanket

## Emergency Bivvies

The SOL Emergency Bivvy is the most lightweight and heat-reflective bivvy on the market. Weighing a mere 99g, this life-saving bivvy fits in the palm of your hand and can reflect 90% of your thermal body heat. The stuff sack has a tinder cord drawcord so you can start a fire in an emergency and an attached emergency signal whistle. The bivvy's taped seams and inherently waterproof and windproof material means the SOL Emergency Bivvy protects you from wind, rain, snow, and cold. Available in single-person or 2-person sizes, store the best-selling SOL Emergency Bivvy in your pack, emergency kit, and car so you're fully protected against the unexpected.

## Fuel Free Lighters

Explore high and low, rain or shine, with the SOL Fuel-Free Lighter or Dual-Arc Plasma Lighter. Both lighters run on a rechargeable lithium-ion battery instead of fuel. A single charge provides over 100 ignitions at any elevation and in any weather. The rugged design ensures any bouncing or crushing won't cause damage. The Fuel-Free Lighter also has a 100 lumen LED light to help you find kindling in the dark and a strobe to signal for help. The Dual-Arc Lighter's slim design fits comfortably in your pocket. Windproof, waterproof, and adventure-proof – pack one of these lighters to pack more than luck.

**BEST

## Tinder Cord

The SOL Reflective Tinder Cord combines the multipurpose utility of paracord with a tinder core, an essential fire starting tool. When you need to start a fire, simply expose the inner cotton core and ignite. Available in 550 and utility diameters, Tinder Cord can be used the same way as you would any paracord such as lashing gear to your pack or raft, but it can then help light the backcountry stove at your campsite. Wrap tinder cord around areas where you want greater visibility for safety as the high visibility orange sheath has reflective elements. When using the SOL Reflective Tinder Cord, a 3-in-1 survival tool, you're packing more than luck.

## Stoke<sup>TM/MC</sup> Tools

The SOL Stoke Tools collection is more than just a set of knives. We chose the name Stoke not just because we are so excited about this collection, but also because these double as fire starters! Each tool has a tinder cord lanyard, a flint fire starter, and it all fits inside a heavy-duty nylon sheath. We chose 420 stainless steel to ensure rust-resistance and a sharp edge. The Stoke Tools are your go-to outdoor multitool collection.

### Stoke Folding Knife

## Emergency Fire Blanket

### Emergency Fire Blanket

ITEM: 0140-1151

The SOL Emergency Fire Blanket is a safe, effective, clean, and easy-to-use addition to an Emergency Kit. Made of 100% fiberglass, this blanket does not expire and smothers non-electrical fires-from bio-fuels to grease. Store this blanket in its bright red pouch with easy-to-follow instructions at your campsite, hang it by the carabiner near your BBQ, in your kitchen, and in your car. In an emergency, wrap the blanket around yourself, a loved one, or a pet to protect them from flames. The SOL Emergency Fire Blanket provides fire safety wherever you are.

## Camp Lighting

The SOL Camp Lantern, available as battery-powered or rechargeable with a power bank, is a rugged, innovative design built to withstand any adventure. Remove the diffusing globe of the lantern to expose the bright LEDs for even more lumens. Switch between warm, cool, and combo modes for the lighting that best suits your eyes and space.

For hands-free lighting, the integrated carabiner in the base makes it easy to attach to gear or hang at a campsite.

Carry the lantern by the ergonomic bail handle, which folds snugly out of the way when not in use. Don't worry about drops as the shatter-proof globe and rubber exterior make it nearly indestructible. The SOL Camp Lantern, durable and feature-filled to light up any adventure.

USB Charging Port

**EVERY MOUNTAIN SERIES KIT CONTAINS WILDERNESS & TRAVEL MEDICINE EDUCATION, AND ALL KITS ARE ORGANIZED BY INJURY.**

# THE MOUNTAIN SERIES BAG DESIGN

# THE DIFFERENCE

## ORGANIZED BY INJURY, FOR FAST AND EFFECTIVE FIRST AID

Developed by Dr. Eric Weiss, the Easy Care First Aid System organizes our hospital-quality supplies and instructions into injury-specific compartments for fast and effective results, so anyone can confidently and quickly administer first aid.

## QUALITY BRANDS, FROM THE INSIDE OUT

High-quality, branded components give your customers the medical solutions they need, from the brands they've come to trust.

## WATER RESISTANT

Water-resistant outer zipper and 2x PU-coated 400. Denier fabric protect components from the elements.

## A DOCTOR IN EVERY BAG!

This 4th edition comprehensive guide, authored by Adventure® Medical Kits Co-Founder Dr. Eric Weiss, has the most up-to-date wilderness medical information and gives key advice about preparing for trips, when to worry, and improvised techniques using the kit's contents.

- Easy-to-Apply Balm Formula

Industry-leading bear sprays designed to **reach farther** and **spray longer** when every second counts.

Aligns with the Montreal Protocol to reduce ozone depletion and registered with Health Canada PMRA.

# Counter Assault 12 meter Bear Deterrent

ITEM #: 1507-7034  
DESCRIPTION: Partial blister with zip tie

ITEM #: 1507-7035  
DESCRIPTION: Full blister with holster

### Features

The only 12 meter bear spray, our 290 g Bear Deterrent reaches farther and lasts longer than other bear sprays on the market. With a 12 meter distance and 8 second spray duration, this powerful bear spray is designed to deter a bear attack with a powerful, atomized blast of concentrated pepper spray with 2% capsaicin and related capsaicinoids, the maximum allowed by law. Canister features a glow-in-the-dark safety wedge and a 4-year shelf life. Counter Assault was originally developed with the University of Montana by a grizzly bear encounter survivor, is registered with the Canadian Department of Health, and meets Montreal Protocol requirements for low-ozone depletion.

# Counter Assault 10 meter Bear Deterrent

ITEM #: 1507-7024  
DESCRIPTION:  
Partial blister with zip tie

ITEM #: 1507-7025  
DESCRIPTION:  
Full blister with holster

## Features

The 230 g Bear Deterrent reaches 10 meters and sprays for 7 seconds. Designed to deter bears from attacking humans, the powerful atomized blast of pepper spray contains 2% capsaicin and related capsaicinoids, the maximum allowed by law.

The lighter and more compact version of our bear spray, the 230 g features our innovative formula that produces an optimal combination of spray distance and time. Canister features a glow-in-the dark safety wedge and a 4-year shelf life. Counter Assault was originally developed with the University of Montana by a grizzly bear encounter survivor, is registered with Canadian Department of Health, and meets Montreal Protocol requirements for low-ozone depletion.

Dog Spray

The Counter Assault combo packs are a value for those looking to purchase multiple canisters for a couple or group. The 230 g 2-Pack with Holsters is two of our 10-meter 7-second-spray-duration bear sprays, each with nylon holsters. The 230 g and 290 g Combo Pack with Holsters features our 10-meter and 12-meter flagship bear sprays with holsters. The 230 g with Holster and Inert Training Canister features our 10-meter spray with holster and canister of inactive spray to practice with and has the same range of distance. Combo packs are a great choice for anyone needing more than a single bear spray or for those who want to practice before a trip into bear country.
