

AMERICAN HARVEST

RECLAIMED WOOD PLANKS

American Harvest is reclaimed wood, sourced exclusively from American farms and repurposed for use in commercial, retail, hospitality, and restaurant spaces.

Each bundle of American Harvest includes 20 square feet of true reclaimed wood planks:

- 3/8" thick
- Mix of 3"-4"-5" wide
- Mix of 12"-24"-36"-48"-60" long

Currently available in six distinctive styles: Rockies, New England, Great Plains, Dakotas, Carolinas, and Alleghenies.

American Harvest Installation

New England, Alleghenies, Rockies, Carolinas,
Great Plains and Dakotas

Sold in Bundles of 20 sf each

Each bundle (8" x 60") contains 20 SF of various widths (3", 4", 5") and lengths (12", 24", 36", 48", 60"). A 1,030 SF project will require 52 bundles = 1,040 SF.

Lead time is 2 to 3 weeks.

For installation over drywall, you can nail the planks directly onto the drywall on the wood stud lines.

Most commercial jobs will likely require metal studs, so the installer can simply install vertical furring strips on top the wall surface 16" apart and nail into those strips.

Glue is for "new wood" that's very flat. Our true old wood has some bend/curve to it, so glue will be useless.

No finishing required.
