Critical need for WATER PURIFIERS

Water supplied by the municipal corporations might be of good quality at the source, but it travels through rusted old pipelines, which are also often unclean. Thus by the time it reaches the consumer, it's contaminated. It gets worse when the water is stored in the exposed overhead tanks, which are dirty and unhygienic. Contamination is even worse in case of borewell water that has high TDS level. This underground water is full of pesticides, insecticides, and harmful chemicals like Arsenic, Fluoride, etc.

Drinking impure water has harmful effects on your health, as it acts like a slow poison, causing routine illnesses like Cholera, Dysentery, Diarrhea, Jaundice, Tuberculosis and even Cancer. More than 37.7 million Indians are affected by water-borne diseases annually, with over 1.5 million children are estimated to die of Diarrhea alone. More than 80% of stomach diseases in India are caused by polluted water.

Hence, it is very important that we ensure its treated and 100% purified before we drink it. And herein lies the importance of an RO.

KENT RO WATER PURIFIERS

Make Water 100% Pure & Protect Your Family

As category pioneers, KENT brings to you the patented technology of the RO+UV+UF+TDS Controller that purifies water while retaining its beneficial natural minerals. The revolutionary Double Purification Technology of RO+UF/UV removes the dissolved impurities and makes water 100% pure.

The Save Water Technology ensures that the wastage of water is altogether eliminated. Unique features like the digital display of purity that shows the performance parameters of the device and the UV-LED light protection in the storage tank that keeps purified water pure, are in place to address your exclusive requirements.

KENT GRAND STAR

RO Water Purifier

With Digital Display of Minerals & Purity

Mineral RO[®] TECHNOLOGY

Reduces Dissolved Impurities
Retains Essential Minerals
Multiple Purification

RO + UV + UF + TDS Control + UV in Tank

Features

- Multiple Purification by RO + UV + UF + TDS Controller makes water 100% pure
- Most modern wall-mountable RO Purifier with digital display of minerals & purity
- UV LED protection in storage tank to keep purified water pure
- Retains essential natural minerals in purified water
- Removes even dissolved impurities and kills bacteria & viruses
- High purification capacity of 20 L/hr.
- High water recovery

KENT GRAND+

RO Water Purifier

With UV Disinfection Light in Storage Tank

Features

- Multiple Purification by RO + UV + UF + TDS Controller makes water 100% pure
- UV LED protection in storage tank to keep purified water pure
- Retains essential natural minerals in purified water
- Removes even dissolved impurities and kills bacteria & viruses
- 9 L storage tank with water level indicator
- High purification capacity of 20 L/hr.
- High water recovery

- UV LED protection in storage tank to keep purified water pure
- Retains essential natural minerals in purified water
- Removes even dissolved impurities and kills bacteria & viruses
- High purification capacity of 20 L/hr.
- High water recovery

KENT PRIDE PLUS

RO Water Purifier

With UV Disinfection Light in Storage Tank

Features

- Multiple Purification by RO + UF + TDS Controller makes water 100% pure
- UV LED protection in storage tank to keep purified water pure
- Retains essential natural minerals in purified water
- Removes even dissolved impurities and kills bacteria & viruses
- 8 L storage tank with water level indicator
- Fully automatic operation with auto on/off function
- High purification capacity of 15 L/hr.

- Multiple Purification by RO + UV + UF + TDS Controller makes water 100% pure
- Retains essential natural minerals in purified water
- Removes even dissolved impurities and kills bacteria & viruses
- Detachable tank (8L) for easy cleaning on regular basis
- High purification capacity of 20 L/hr.
- High water recovery

KENT SUPER STAR

RO Water Purifier

With Sleek & Compact Design

Features

- Multiple Purification by RO + UV + UF + TDS Controller makes water 100% pure
- Retains essential natural minerals in purified water
- Removes even dissolved impurities and kills bacteria & viruses
- Elegant & compact body design with transparent cover
- Computer controlled filter change & UV fail alarm
- 8L storage capacity
- High purification capacity of 15 L/hr.

Features

- Multiple Purification by RO + UV + UF + TDS Controller makes water 100% pure
- Under-the-counter design with hydrostatic in-built storage tank
- Ideal for under the counter as well as side-by-side refrigerator placement
- Retains essential natural minerals in purified water
- Removes even dissolved impurities and kills bacteria & viruses
- Filter change and UV fail alarm for enhanced safety
- 6L storage capacity
- High purification capacity of 20 L/hr.
- High water recovery

KENT NEXT-GEN COMMERCIAL WATER PURIFIERS

For Plastic-free Workplaces

Most offices and public places, serve water stored in plastic jars and bottles as pure drinking water. While the quality of such water may be questionable, it generates plastic waste that's harmful for our environment. Moreover, replacing the jars is both tedious and expensive in the long run. With KENT Next-Gen Commercial Water Purifiers, all these problems can now be addressed at once.

KENT Next-Gen Commercial RO Purifiers are here to reduce the use of plastic bottles and thus save the environment. With the cutting-edge RO+UV+UF+TDS Control patented technology, these commercial RO purifiers purify the drinking water and removes even dissolved impurities, bacteria and viruses, while letting it retain the essential natural minerals. Designed to cater to larger number of people, they come with high purification capacity from 20L/hr to 100L/hr. These purifiers also come with a condenser that makes chilled and purified water available at all times.

KENT ELITE +

Online Purification for Water Coolers

50
L/hr.

Features

- Multiple Purification by RO + UV + UF + TDS Controller makes water 100% pure
- High purification capacity of 50 L/hr.
- ABS construction for corrosion free operation and long-life
- Automatic Operation with auto-on/off

RO + UF + TDS Control

Features

- Multiple Purification by RO + UF + TDS Controller for commercial offices
- Higher purification capacity of 40 L/hr.
- Chiller with high capacity chilled water storage tank
- Computer controlled operation with filter change alarm
- ABS front cover and stainless steel body
- Elegant looks

KENT WATER FOUNTAIN

RO Water Purifier
Chiller Cum in-built RO Water Purifier

Features

- Inline Water Cooling System with ice bath gives you 100% pure chilled water instantly
- Elegantly designed stainless steel body with the black granite top
- Low maintenance & running cost
- High purification capacity 40 L/hr.
- Fan cooled condenser that chills purified water at the rate of 30 L/hr.
- It purifies water automatically without any human touch

KENT UV WATER PURIFIERS

With Next-Gen UV Technology

With KENT's world-class, innovative next-gen UV + UF purifier + UV disinfection in tank features have been designed considering all the problems faced by people with conventional UV purifiers.

Water with TDS levels upto 100mg/litre may only require disinfection from bacteria & viruses. In such case inline UV purification combined with UF purification is sufficient to remove bacteria & viruses. Further, UV LED light disinfection storage tank ensures purified water remain pure in storage tank. Be it tap,

overhead tank or underground, water from any of these sources can be purified to bottled water quality. To ensure delivery of purer and healthier water, a micro-processor is installed in the purifier that has computer controlled Filter Change Alarm and UV Fail Alarm. It has earned the trust of the world as the best in the category. And now, it's your turn to bring it home and enjoy the taste of purity.

The KENT Advantages

Double Purification - 100% Pure Water

UV/UF purification with ultra-violet disinfection system for 100% pure water.

Removes Bacteria Viruses & Cysts

UF purification after UV ensures that bacteria gets trapped & the purified water is 100% pure.

Purified Water On Demand

Purified water is stored in tank and is available on demand.

Keeping Purified Water Pure

UV LED Light protection in storage tank to keep purified water pure.

KENT MAXX STAR

UV + UF Purifier

With UV Disinfection Light in Storage Tank

KENT TECHNOLOGY

UV + UF + UV in Tank

Features

- Strong 11W UV purification
- Double purification, first by UV followed by Hollow Fiber UF Membrane-filters out bacteria, viruses and even cysts
- India's first water purifier with UV disinfection in tank for absolute purification
- Computer Controlled Operation with Filter Change Alarm & UV Fail Alarm
- Fully Automatic Operation with auto-on & auto-off function
- LED indicators for power on and purification process on display
- High purification capacity of 60 L/hr.
- Easy-to-clean detachable storage tank

KENT ULTRA STAR

UV + UF Purifier

With UV Disinfection Light in Storage Tank

Features

- Strong 11W UV purification
- Double purification, first by UV followed by Hollow Fiber UF Membrane-filters out bacteria, viruses and even cysts
- India's first water purifier with UV disinfection in tank for absolute purification
- Computer Controlled Operation with UV Fail Alarm
- Fully Automatic Operation with auto-on & auto-off function
- Food grade, non-breakable ABS plastic construction
- High purification capacity of 60 L/hr.
- Completely disinfects water without changing its taste, odour and pH scale

KENT TECHNOLOGY

UV + UF + UV in Tank

KENT STERLING UV

Under-the-counter UV + UF Water Purifier
With Built-in Storage Tank

KENT TECHNOLOGY

UV + UF Purification

Features

- Strong 11W UV purification
- Double purification by UV + UF
- UV Purifier with built-in hydrostatic tank for installing under-the counter
- Compact design which takes less space for installation
- Fully Automatic Operation with an auto-on and auto-off function
- Completely disinfects water without changing its taste, odour & pH scale
- Effective against bacteria, viruses, and all kinds of residual impurities like chlorine
- High purification capacity of 60 L/hr.

KENT MAXX

UV + UF Water Purifier
With Transparent Detachable Tank

Features

- Strong 11W UV purification
- Double purification, first by UV followed by Hollow Fiber UF Membrane-filters out bacteria, viruses and even cysts
- Computer Controlled Operation with Filter Change Alarm & UV Fail Alarm
- Fully Automatic Operation with auto-on & auto-off function
- Transparent, detachable tank for easy on-site cleaning
- Purified water storage tank with 7L capacity
- LED indicators for power on and purification process on display
- High purification capacity of 60 L/hr.

KENT TECHNOLOGY

UV + UF Purification

KENT ULTRA STORAGE

UV + UF purifier With Purified Water Storage Tank

KENT TECHNOLOGY

UV + UF Purification

Features

- Strong 11W UV purification
- Double purification, first by Hollow Fiber UF membrane followed by UV-filters out bacteria, viruses and even cysts
- Automatic operation with auto-on/off function
- Purified water storage tank with 7 L capacity
- High purification capacity of 60 L/hr.

KENT ULTRA UV

3 Stage Advanced UV Water Purifier

Features

- Strong 11W UV purification
- Online UV purification process
- Effective against bacteria, viruses and all kinds of residual impurities
- Disinfects water without changing its taste, odour and pH scale
- High purification capacity of 60 L/hr.
- Best suited for low TDS water

KENT TECHNOLOGY

UV Purification

KENT GRAVITY WATER PURIFIERS

Making Pure Water Accessible

KENT, as a brand believes in every individual's right to health. And it's this conviction that inspires us to make pure water available for all.

People staying in rural areas are often the ones most affected by contaminated water, and to make matters worse, many villagers still don't have access to electricity. High-end electric water purifiers are out of their reach hence, non-electric water purifiers come as perfect solution to fight water contamination. To bring purity within the reach of the rural areas and people under lower income group, KENT has come up with KENT UF Water Purifiers that can work without electricity to sanitize tap and municipal corporation water, and make it better than boiled water without the use of chemicals.

KENT GOLD

Non-Electric Gravity Water Purifier

UF Purification

Features

- Non-chemical based water purification system
- Use of Hollow Fiber UF Membrane reduces bacteria and cysts as well as other pathogens
- Sediment and Activated Carbon Filter removes physical and chemical impurities from water
- High storage capacity of 20 litres
- Food grade plastic construction for trouble free maintenance and long life

KENT GOLD OPTIMA

Non-Electric Gravity Water Purifier

Features

- Counter-top/wall-mounted water purifier
- Non-chemical based water purification system
- Use of Hollow Fiber UF Membrane reduces bacteria and cysts as well as other pathogens
- Sediment and Activated Carbon Filter removes physical and chemical impurities from water
- High storage capacity of 10 litres
- Food grade plastic construction for trouble free maintenance and long life
