

Cutting Policy

All cutting instructions need to be turned in before your animal can be harvested and the cutting instructions need to come in as a Conrath Quality Meats cut sheet. This can be received via phone, email, mail, or our website. We will not harvest your animal until this has been turned in.

If the harvest date is missed due to not having cutting instructions, yardage fees will be applied to your invoice to cover the additional animal care.

If we have still not received your cutting instructions one week after harvest date then a standard cutting will be executed.

Any questions please contact Paul Bentley, aka Chumper.
