

Baltic Birch

Drawer Boxes

DBS offers drawer boxes constructed with 9 plies of imported Baltic Birch, available in a variety of thicknesses. They are suitable for dovetailed, doweled or nailed corner construction.

Strength and Aesthetics at an Affordable Price

Our Baltic Birch drawer boxes offer a combination of strength and aesthetics at a price point suited to all budgets. They are constructed out of imported Baltic Birch plywood which comes standard at a 12mm thickness. These drawer boxes feature 9 plies of birch that are virtually void free and offer stability, strength and excellent machining properties.
