Here, veterans and their families connect, restore, and grow.

Understanding the need.

For many veterans, the challenges of military service don't end when they return home.

Changes in their mental or physical health due to trauma may impact a veteran's ability to work. Others may experience disconnection, isolation, depression, substance misuse, or housing instability. The impact of these hardships extends beyond the individual, affecting the veteran's family and community.

We know how to address the struggles of this community because we, too, are veterans. From the moment that veterans, military members, and their family members walk through our doors, they feel welcome, accepted, and at home.

You found your place.

Founded in 2011, Clear Path for Veterans is a place of comfort and healing for all. Through our supportive community, programming, and direct services, we enrich the lives of veterans while addressing the wellness and social issues they face.

A program for every veteran.

We're continually expanding and evolving our resources and services. Learn about our core programs, available to veterans and their families free of charge.

Canine

We raise purpose-bred puppies to support veterans physically and mentally. Our program is accredited by Assistance Dogs International, certifying our adherence to the highest standards.

Career Services

Translating military skills into the civilian job market can be tricky. We offer mentorships, career counseling, and workshops to guide veterans toward their desired postmilitary careers.

Culinary

We know that food builds friendship and camaraderie. Veterans and their families can earn cooking certifications, take classes, and partake in events centered around the kitchen.

Enrichment

Growth and learning come in many forms. Through workshops in art, nature, mindfulness, and more, veterans can engage in self-exploration, socialization, and healing.

Peer + Family

Our Peer Support Program emphasizes connection, stability, and understanding in a judgment-free zone. Whether interacting one-to-one or in a group, veterans and family members learn that they are not alone.

Wellness

Our approach to health and well-being is holistic. We offer massage therapy, touch therapy, yoga classes, and more to address the spiritual, physical, mental, and emotional components of health.
