

Productsheet

Inspired by the archaic simplicity of the milking stool from the mountains of Austria. Made by hand from Austrian oak cut blocks, this low stool brings a century old design language in urban houses.

CARE GUIDE

Before cleaning, the material compatibility should be tested on an inconspicuous area.

SOLID WOOD

Wood swells and shrinks when exposed to moisture or heat. This can result in dimensional changes, distortions and open joints. An even room climate can prevent this (approx. 20-23°C and 50-70% humidity). Clean the surface with a pH-neutral washing-up liquid and a soft cloth. Wipe the surfaces with a dry, soft cloth to avoid streaking.

DISCLAIMER

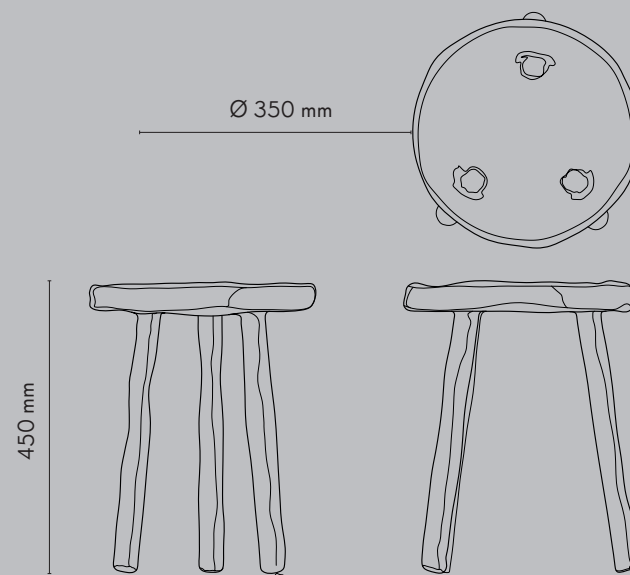

The information included in these materials is a guidance on the proper care and maintenance of our products, but this guidance cannot be considered a guarantee of specific results. We are not liable for any damage resulting from care and maintenance activities. Information from suppliers of chemicals and cleaning solvents, including but not limited to label instructions, should always be followed.
