

**2024**  
**PLAYSOFT**  
SWATCH  
CATALOGUE

All PlaySoft products are manufactured locally in our Johannesburg factory.

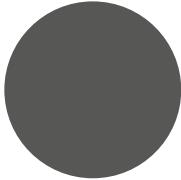

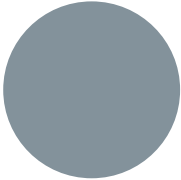

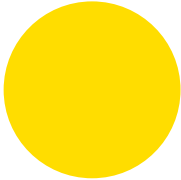

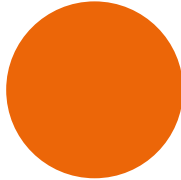

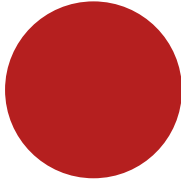

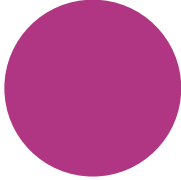

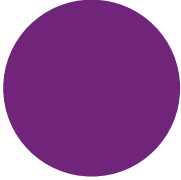

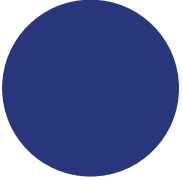

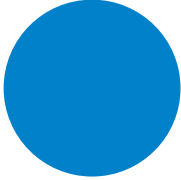

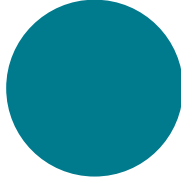

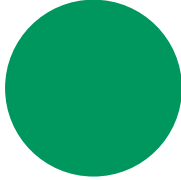

We recommend the following 3 fabrics: PVC, Leatherette Velour - see short descriptions and swatches below. All 3 fabrics are priced the same.

If you are working with an interior designer and/or would like to enquire about alternative fabric options, you can cover your blocks in any strong wearing fabric of your choosing or have any digitally printed images or logos onto PVC or fabrics, a quote will be generated by Head Office.

# PVC

Similar to jumping castle fabric, PVC is our most durable, long lasting and easy to clean fabric ideal for high traffic areas and most recommended for longevity. PVC is not soft to touch and has a glossy finish.

## PVC Colours

# Leatherette

Softer than PVC and with a matt finish. Easy to wipe down and a great solution for homes and indoor therapy practices looking for a softer feel.

# Velour

Velvety to the touch, this is the softest of the 3 main fabric options. Best for furniture items like Flip Chairs but can also be used in conjunction with Leatherette for two-fabric solutions. Darker colors are recommended especially on play items as light colors are more complex to clean.
