

Usage Guide for Money and Good Fortune Manifestation Ritual Kit

Here's a guide on how to harness the energies of the Money and Good Fortune Manifestation Ritual Kit to align with your heart's desires. Remember using this ritual kit is a personal and sacred practice. Customize it to suit your preferences and needs.

1. **Setting the Stage:** Find a tranquil and undisturbed space where you can focus your energy. This could be a cozy corner, an altar, or any space that resonates with you.
2. **Smudging Sacred Smoke**
 - Begin by opening a few windows and doors in the area you want to smudge. This allows any negative energy and smoke to easily exit the space.
 - Light the Sage or Palo Santo: Select your cleansing method: gentle with Palo Santo or deep with California White Sage. Light the end of the sage bundle or palo santo stick using a match or lighter. Let the flame catch and burn for a moment until it forms a small ember. Once the sage or palo santo is burning well, gently blow on the flame until it extinguishes. This will leave you with a smoldering ember that emits fragrant smoke.
 - Use a Fireproof Bowl: Hold the lit sage bundle or palo santo stick over a fireproof bowl or dish to catch any falling ashes or embers. This prevents any fire hazards. Allow the sage or palo santo to smolder and produce a steady stream of smoke, similar to incense. It's this smoke that carries the cleansing and purifying properties. Always place a heat-resistant and fireproof dish beneath the smudging bowl.
 - Start Smudging: Begin by using a feather to gently direct the smoke around the person, object, or space you want to cleanse. Start at the front entrance and move clockwise.
 - Intention and Mindfulness: As you move the smoke, set a clear intention for the smudging ritual. Visualize the smoke dispelling negativity, stagnant energy, and any unwanted influences. Continue walking around the space, ensuring that the smoke reaches all corners, crevices, and areas that need cleansing. If smudging a person or object, make sure to pass the smoke over them as well.
 - Closing the sacred smoke ritual: Once you've covered the entire area or object, return to where you began and extinguish the sage or palo santo by gently pressing the lit end into the fireproof bowl or sand until it's no longer emitting smoke.
 - Remember, smudging is a deeply spiritual practice, please approach it with respect and mindfulness. Always prioritize safety by using fireproof containers and ensuring that the smoldering sage or palo santo is completely extinguished before leaving the area.

3. **Connecting with Crystals:** Hold the citrine and clear quartz crystals in your hands, close your eyes, and take a few deep breaths. As you do so, set your intention to manifest money and good fortune. Envision the qualities you seek in these connections and feel them as if they're already present in your life. Place the crystals by your Agate Slice. As you lay the crystals, imagine your intentions being absorbed and magnified by this fusion of energies.
4. **Amplifying Intentions:** Gently ring the brass altar bell to signal the universe that you are ready to send forth your intentions. As the sound resonates, visualize your desires reverberating through the cosmos, inviting the energies of money and good fortune to respond.
5. **Meditation and Reflection:** Sit in quiet meditation, focusing on the feelings you wish to experience through money and good fortune. Allow yourself to feel the warmth, joy, and fulfillment that come with these emotions. Let them permeate every cell of your being.
6. **Gratitude and Release:** Conclude by expressing gratitude to the universe for its support in your manifestation journey. As you do so, release your intentions into the cosmic flow, trusting that the universe is orchestrating the perfect timing for your desires to materialize.
7. **Carry the Hamsa Hand Evil Eye Charm:** Tie the Hamsa Hand Evil Eye charm to the altar with provided hemp string or carry it with you as a talisman of protection and intention throughout your day.
