

BIOBAG LINER 10L 25 / ROLL

BioBag Liner, the sustainable solution for waste management. Each roll contains 25 compostable liners, specifically tailored to fit 10-litre bins. Crafted from renewable plant-based materials, such as corn starch, these liners are fully compostable, reducing plastic waste and promoting environmental sustainability. With a sturdy construction and leak-proof design, BioBag Liners ensure clean and odour-free waste disposal.
