

# RUBBERMAID 27.9CM MICROFIBRE WALL/STAIR DAMP MOP

HYGEN™ Microfiber is a proven solution, removing 99.7% or more of tested viruses and bacteria. The patented zig-zag design, crafted from polyester and polypropylene, incorporates built-in scrubber technology for enhanced cleaning power. Optimised face material construction ensures a balance between drag force and cleaning efficacy, providing an effortless cleaning experience. Tested to withstand 500 launderings to CDC guidelines in hot water (71.1°C) or 200 with chlorine bleach, this microfiber helps reduce cross-contamination. The colour-coded edge tape encourages the use of different colours for various areas or tasks.

**SPECIFICATIONS:**  
Fits on HYGEN™ 27.9cm  
Quick Connect Frame  
(FGQ55000YL00)
