ADJUST A-POST

TELESCOPIC STEEL POST

Do you need a post to support an LVL but not sure of the height?

ADJUST A-POST BY NETWORK STEEL IS THE ANSWER!

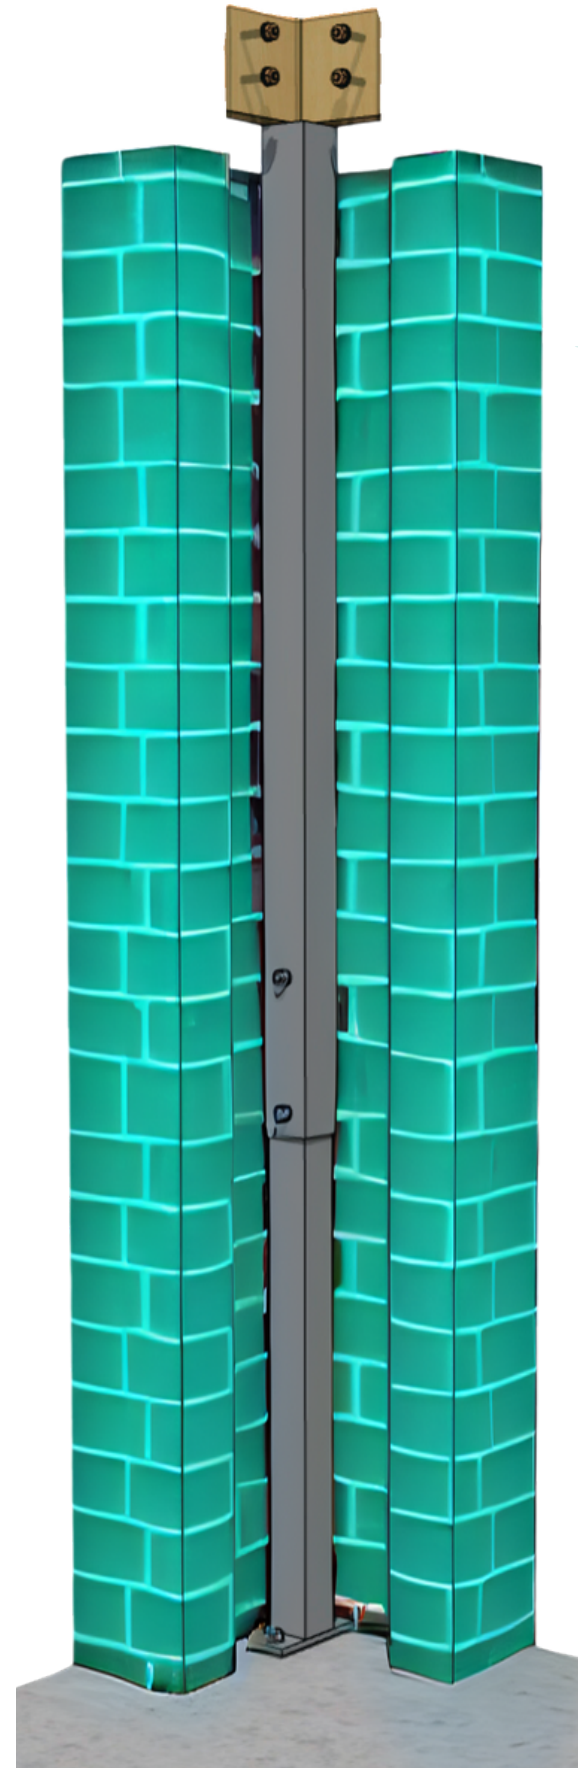

Our Australian made ADJUST-A-POST's are made with an internal SHS sleeve that is bolt fixed in situ to the desired height.

Adjustable posts are commonly used in residential housing portico and outdoor areas where the exact height of the pad footing is challenging to predetermine.

Adjustable posts are becoming a fast favourite alternative to fixed height columns.

- **Corner and Intermediate available**
- **Fully engineered**
- **Fully site adjustable**
- **No more temporary propping**
- **One Storey and Two Storey available**
- **Perfect for Alfresco, Porch or Portico**
