GALVANISED STEEL HEELGUARD BOX GRATES

Our galvanised steel box grates are Australian designed and made to our specifications. Suitable for most domestic and commercial traffic with long lasting galvanised steel your grates will last the test of time. Heelguard is pet and pedestrian friendly and reduces the amount of large debris going into your drain.

All box grates are open-ended, this means you can join them to any length required. Using our end caps and outlets you can use our modular system to suit your project requirements. **For outlets, joiners and end caps see our galvanised accessories below.**

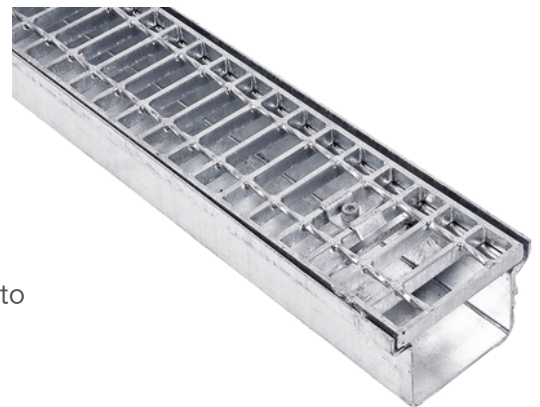

GALVANISED STEEL HEELGUARD BOX GRATE - Suitable for pedestrians, cars and light trucks

AVAILABLE SIZES	125MM WIDE X 80MM DEEP	150MM WIDE X 125MM DEEP	200MM WIDE X 170MM DEEP	300MM WIDE X 170MM DEEP

3000MM	125HEEL3	150HEEL3	200HEEL3	300HEEL3**

** Available to order upon request

GALVANISED TRADITIONAL BOX GRATES

These box grates are similar to our Heelguard design but with a more open mesh top to allow faster water flow where pedestrian traffic might not be such an issue.

All box grates are open-ended, this means you can join them to any length required. Using our end caps and outlets you can use our modular system to suit your project requirements. **For outlets, joiners and end caps see our galvanised accessories below.**
