

HEBIE CHAINGLIDER INSTALLATION & SERVICE MANUAL

The instructions below will aid you in the successful installation and operation of the Hebie Chainglider on your Frog Bike.

PLEASE READ BEFORE USE

⚠ WARNING: This is a low friction device. The chain needs to be well lubricated regularly and before first use. The chainguard needs to be cleaned regularly. A dry chain may result in friction which could cause the chainguard to detach during motion.

**LUBRICATE CHAIN REGULARLY
AND BEFORE FIRST USE.**

PACK CONTENTS

FRONT PLATE

BACK PLATE

SHARKFIN SECURING TAB

ASSEMBLY

1. Install backplate onto the chainring. Be careful not to snag the gear cable.

2. Install the front plate on top of the backplate. Ensure every clip is clicked in with an audible 'Click.'

3. Be sure to route the chain between the tabs.

4. Install the sharkfin into the four clips. Use light pressure if necessary to ensure a tight fit.

5. Check over each clip to ensure they are fully seated for a tight fit.

COMPLETE!

To remove the chainglider for maintenance, follow the assembly instructions in reverse.
