V1.2022

PACK CONTENTS

KICKSTAND

2 X HEX BOLTS

2 X PACKAGING WASHERS

TOOLS NEEDED

4MM ALLEN KEY

ASSEMBLY

1. The plastic packaging washers are for transportation only, and should be removed before installing the kickstand.

2. Locate the mounting point underneath the left-side chain stay.

3. Attach bolts through the kickstand mount.

4. Tighten both bolts with an allen key to 10nm.

5. Ready for adjustment.

OPERATING & ADJUSTING

1. If installed correctly, the kickstand should move up and down with a firm movement of the foot.

2. To adjust the height of the stand, simply pull the pin upwards with your thumb

3. Slide the base to the desired height.

4. Close the pin to lock in position

COMPLETE!

You can fine-tune the positioning of your kickstand by opening the pin and trying different settings to achieve you desired outcome.
