

We know
what counts. **The best tool
for your craft.**

Do you want to deliver excellent results to your customers? Then you should set high standards when it comes to your tools. You can rely on Altendorf Group's expertise. We can offer you innovative Altendorf circular saws and powerful Hebrock edge banding machines together under one roof. For efficient work, first-class productivity, and the highest safety.

We know what counts: 6 benefits for you!

First-class quality

Unmatched precision, impressive value retention, and extreme durability. Our machines meet the absolute highest quality criteria. Failures due to wear? They'll soon be a thing of the past.

Tailored machines

Whether it's an Altendorf sliding table saw or a Hebrock edge banding machine - we configure all of our machines so that they are perfectly tailored to your individual needs. We offer a range of equipment options that make this individualisation possible.

Fair financing and warranty conditions

We offer you advantageous financing options and flexible extended warranties lasting 1 to 5 years.

Innovative service app

We offer support and information 24/7 on the app "myALTENDORFGROUP". You will receive immediate support: Live chat, training videos, spare part orders, service history, the most current machine documentation – you have got a lot in the palm of your hand with the App.

The best service

With its products and services, the Altendorf Group offers you more economic efficiency and more process reliability as a result. Two particular service highlights: Our flat rate maintenance fees and quick spare parts service via our online shop.

Trustworthy partnership

Our passion for trades is huge. We are fully committed to partnering with you for decades and supporting you on your way to success. So we like to surprise you with innovative solutions. For us, standing still means going backwards.

The fastest guardian angel in the world.

HAND GUARD

There are no differing opinions when it comes to the highest safety. But there is one system.

HAND GUARD protects the most important thing in the craft - the hands. And its unique early detection system with two cameras does not just keep your employees safe, but also your orders.

- Two cameras for early detection
- Quick lowering and quick stop within a quarter of a second.
- System starts before hand contact is even made
- Also works with suitable gloves
- No damage to machines or materials

AUSGEZEICHNET

Der Deutsche Arbeitsschutzpreis
2021
