

JC-LGL LED Construction String Light Round series 50W 6,000lm with 5 light bulbs spaced 10 feet apart, overall length of 50 foot, each light includes a carabiner to make installation simple. The work lights are an excellent alternative to traditional incandescent lights, you can leave it as a permanent installation to light the way for others or use it to brighten other areas such as job sites, construction sites, mines, campgrounds, attics, basements, storage areas, stairwells, outdoor markets, marinas, or anywhere extra light is needed. ETL/FCC/RoHS are approval, as a testament to its exceptional quality, it comes with a generous 5-year warranty.
