

**I. IDENTIFICATION****Product identifier****PALMFOAM AF****Recommended use of the chemical and restrictions on use**

Antibacterial hand wash.

**Details of the supplier of the safety data sheet**

Warewashing Solutions Pty Ltd

Unit 17 / 12 Mars Road

LANE COVE NSW 2066

Telephone 1300 217 411

Email: info@warewashingsolutions.com.au

**Emergency telephone number**

13 11 26 Poisons Information Centre

**2. HAZARDS IDENTIFICATION****Classification of the substance or mixture**

Not classified as hazardous according to Safe Work Australia criteria.

**Label elements**

Not applicable

**Other hazards**

None known

**3. COMPOSITION / INFORMATION ON INGREDIENTS****Mixtures**

<b>Ingredients</b>	<b>CAS number</b>	<b>Weight %</b>
Alcohols, C10-16, ethoxylated, sulfates, sodium salts	68585-34-2	< 5 %
Triclosan; 2,4,4'-trichloro-2'-hydroxy-diphenyl-ether; 5-chloro-2-(2,4-dichlorophenoxy)phenol	3380-34-5	0.15 %

**4. FIRST AID MEASURES****Description of first aid measures**

For advice, contact a Poisons Information Centre (Phone Australia 131 126; New Zealand 0800 764 766) or a doctor.

**Inhalation**

If inhaled, remove from contaminated area.

**Skin contact**

If skin or hair contact occurs, remove contaminated clothing and flush skin and hair with running water.

**Eye contact**

If in eyes wash out immediately with water.

**Ingestion**

If swallowed, do NOT induce vomiting.

**Most important symptoms and effects, both acute and delayed**

May cause mild eye irritation.

**Indication of any immediate medical attention and special treatment needed**

Treat symptomatically.

**5. FIRE FIGHTING MEASURES****Extinguishing media**

Not combustible. If material is involved in a fire use: fine water spray, foam, dry agent (carbon dioxide, dry chemical powder).

**Special hazards arising from the substance or mixture**

Not combustible. Decomposes on heating emitting toxic fumes.

**Advice for firefighters**

Fire fighters to wear self-contained breathing apparatus and suitable protective clothing if risk of exposure to products of decomposition.

**Hazchem Code**

None allocated

**6. ACCIDENTAL RELEASE MEASURES****Personal precautions, protective equipment and emergency procedures**

Wear protective equipment to prevent skin and eye contact and breathing in vapours. Shut off all possible sources of ignition. Work up wind or increase ventilation. Clear area of all unprotected personnel. Contact local emergency services where appropriate.

**Environmental precautions**

Avoid contaminating waterways. If contamination of sewers or waterways has occurred advise local emergency services.

**Methods and material for containment and cleaning up**

Contain using sand or soil. Prevent run off into drains or waterways. Use absorbent (soil, sand or other inert material). Collect and seal in properly labelled containers or drums for disposal.

**Reference to other sections**

See Section 8 for appropriate personal protective equipment. See Section 13 for waste treatment methods.

**7. HANDLING AND STORAGE****Precautions for safe handling**

Keep out of reach of children. Avoid skin and eye contact and breathing in vapour. Always wash hands before smoking, eating, drinking or using the toilet. Wash contaminated clothing and other protective equipment before storage or re-use.

**Conditions for safe storage, including any incompatibilities**

Store in a cool, dry, well ventilated place out of direct sunlight. Store away from foodstuffs. Store away from incompatible materials

described in Section 10. Keep container standing upright. Keep containers closed when not in use. Check regularly for leaks.

**Specific end uses**

See Section 1.

**8. EXPOSURE CONTROLS / PERSONAL PROTECTION****Control parameters**

No exposure standard assigned for this specific material by the Safe Work Australia.

**Exposure controls****Appropriate engineering controls**

Natural ventilation should be adequate under normal use conditions. Keep containers closed when not in use.

**Individual protection measures, such as personal protective equipment**

The selection of PPE is dependent on a detailed risk assessment. The risk assessment should consider the work situation, the physical form of the chemical, the handling methods, and environmental factors.

**Eye/face protection**

Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. Refer to Australian/New Zealand Standard AS/NZS 1337:1992 for guidance on selection and use of protective eyewear.

**Skin protection**

Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Refer to Australian/New Zealand Standard AS/NZS 2161.1: 2000 for guidance on selection and use of protective gloves. Personal protective equipment for the body, appropriate footwear and any additional skin protection should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

**Respiratory protection**

Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. Refer to Australian/New Zealand Standard AS/NZS 1715 and AS/NZS 1716 for guidance on selection and use of respiratory devices.

**General safety and hygiene measures**

Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

**Environmental exposure controls**

Not available

**9. PHYSICAL AND CHEMICAL PROPERTIES****Information on basic physical and chemical properties**

Appearance	Blue liquid
Odour	Floral fragrance
Odour threshold	Not applicable
pH	6.5 – 7.0

www.warewashingsolutions.com.au

Melting point/freezing point	Not available
Initial boiling point and boiling range	Not available
Flash point	Not applicable
Evaporation rate	Not available
Flammability (solid, gas)	Not applicable
Upper/lower flammability or explosive limits	Not available
Vapour pressure	Not available
Vapour density	Not available
Relative density	1.02
Solubility	Miscible in water
Partition coefficient: n-octanol/water	Not available
Auto-ignition temperature	Not available
Decomposition temperature	Not applicable
Viscosity	Not available
Explosive properties	Not applicable
Oxidising properties	Not applicable

**Other information**

No additional information

**10. STABILITY AND REACTIVITY****Reactivity**

No hazardous reactions under normal storage and use conditions.

**Chemical stability**

Stable under normal storage and use conditions.

**Possibility of hazardous reactions**

No hazardous reactions known under normal storage and use conditions.

**Conditions to avoid**

Avoid contact with foodstuffs. Avoid exposure to heat, sources of ignition, and open flame. Avoid contact with other chemicals.

**Incompatible materials**

None known

**Hazardous decomposition products**

None known under normal storage and use conditions.

**11. TOXICOLOGICAL INFORMATION****Information on toxicological effects****Acute toxicity:** No data available for the mixture

<b>Ingredient</b>	<b>Oral Toxicity (LD50)</b>	<b>Dermal Toxicity (LD50)</b>	<b>Inhalation Toxicity (LC50)</b>
Alcohols, C10-16, ethoxylated, sulfates, sodium salts	1,600 mg/kg (rat)		
Triclosan; 2,4,4'-trichloro-2'-hydroxy-diphenyl-ether; 5-chloro-2-(2,4-dichlorophenoxy)phenol	3,700 mg/kg (rat)	9,300 mg/kg (rabbit)	

www.warewashingsolutions.com.au

**Skin corrosion/irritation:** No data available

**Serious eye damage/irritation:** No data available

**Respiratory or skin sensitisation:** No data available

**Germ cell mutagenicity:** No data available

**Carcinogenicity:** No data available

**Reproductive toxicity:** No data available

**Summary of evaluation of the CMR properties:** No data available

**Specific Target Organ Toxicity (STOT)-single exposure:** No data available

**Specific Target Organ Toxicity (STOT)-repeated exposure:** No data available

**Aspiration hazard:** No data available

#### Information on likely routes of exposure

**Inhalation:** Not expected to cause respiratory irritation.

**Skin contact:** Not expected to be a skin irritant.

**Eye contact:** May be an eye irritant.

**Ingestion:** No adverse effects expected, however, large amounts may cause nausea and vomiting.

#### Symptoms related to the physical, chemical and toxicological characteristics

May cause slight redness and tearing of the eyes.

#### Delayed and immediate effects as well as chronic effects from short and long term exposure

No known effects.

#### Numerical measures of toxicity

Acute oral toxicity estimate (ATE) > 5000 mg/kg

#### Interactive effects

No information available.

#### Other information

## 12. ECOLOGICAL INFORMATION

#### Toxicity

No data available. Avoid contaminating waterways.

#### Persistence and degradability

No data available.

www.warewashingsolutions.com.au

**Bioaccumulative potential**

No data available

**Mobility in soil**

No data available

**Other adverse effects**

No data available

## 13. DISPOSAL CONSIDERATIONS

**Waste treatment methods**

Waste must be disposed of in accordance with federal, state and local environmental control regulations. The generation of waste should be avoided or minimised wherever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

## 14. TRANSPORT INFORMATION

Not classified as a Dangerous Good by the criteria of the Australian Code for the Transport of Dangerous Goods by Road and Rail.

**UN Number**

Not applicable

**UN Proper shipping name**

Not applicable

**Transport hazard class(es):**

Not applicable

**Packing group**

Not applicable

**Environmental hazards:**

Not applicable

**Special precautions for user**

Not applicable

**Transport in bulk according to Annex II of MARPOL and the IBC Code**

Not applicable.

**Other relevant information:**

**Hazchem Code**

None allocated

**15. REGULATORY INFORMATION****Safety, health and environmental regulations/legislation specific for the substance or mixture****Classification**

Globally Harmonised System of Classification and Labelling of Chemicals (GHS) as published by Safework Australia.

**Poison schedule**

A poison schedule number has not been allocated to this product using the criteria in the Standard for the Uniform Scheduling of Medicines and Poisons (SUSMP).

**Inventory listing(s)**

AICS (Australian Inventory of Chemical Substances): All components are listed on AICS, or are exempt

**Chemical safety assessment**

No chemical safety assessment has been carried out for this substance / mixture by the supplier

**16. OTHER INFORMATION**

**Date of preparation**                      **October 2021**

**Abbreviations and Acronyms**

ADG - Australian Code for the Transport of Dangerous Goods by Road and Rail (7th edition)

AICS - Australian Inventory of Chemical Substances

ATE - Acute Toxicity Estimate

CAS - Chemical Abstracts Service Registry

GHS - Globally Harmonized System of Classification and Labelling of Chemicals

IBC - Intermediate Bulk Container

IATA – International Air Transport Association

ICAO – Technical Instructions for the Safe Transport of Dangerous Goods by Air

IMDG – International Maritime Dangerous Goods

IMO – International Maritime Organisation

LC50 - Lethal Concentration, 50% / Median Lethal Concentration

MARPOL 73/78 - International Convention for the Prevention of Pollution From Ships, 1973 as modified by the Protocol of 1978. ("Marpol" = marine pollution)

LD50 - Lethal Dose, 50% / Median Lethal dose

PBT - Persistent, Bioaccumulative and Toxic

STOT-RE - Specific target organ toxicity (repeated exposure)

STOT-SE - Specific target organ toxicity (single exposure)

SUSMP - Standard for the Uniform Scheduling of Medicines & Poisons

UN - United Nations

vPvB - very Persistent and very Bioaccumulative

**Key literature references and sources of data**

This Safety Data Sheet summarises to our best knowledge at the date of issue, the chemical health and safety hazards of the product and general guidance on how to safely handle the product in the workplace. Since Lab 6 Pty. Ltd. cannot anticipate or control the conditions under which this product may be used, each user must, prior to usage, review this Safety Data Sheet in the context of how the user intends to handle and use the product in the workplace.
