In a Nutshell:

By the end of this course you will be able to create Industry Professional Fashion CADs we are industry literate and suppliers or business owners can understand them very well. If you are an advance user already we will design your course mostly around the Modules 5, 6, 7 and 8.

Like I said it above, before the starting of the course, we will conduct an introductory class in which we will get to know Your Need and Requirements and will discuss for class days and timings.

Feel free to ask if you have any questions, write an email to:
