

# SPACE™ TRAILERS

It's a luggage trailer. A bike hauler. A camper's dream trailer. The SPACE Trailer is the sport utility cargo trailer that does everything you do. Accessorize your SPACE Trailer and make it the supreme sport trailer for the road. Hauls kayaks, canoes, bikes, or rooftop tents.

# RIGOROUSLY TESTED

SPACE Trailers were developed through first-hand experience and research with the idea of purchasing more fuel-efficient, smaller crossover vehicles and not leaving any gear behind.

# VERSATILE & DURABLE

SPACE Trailers are lightweight, customizable sport trailers. Our SPACE Trailers combine the versatility of a utility trailer with the pack-up-and-go of a small cargo trailer. The tough but lightweight enclosed adventure trailer lets you bring everything you want, not just what you need.
