/ABOUT KAZARTT/

KAZARTT is the **Belgian brand of ethical and positive belts.**

With KAZARTT, we aim to encourage everyone to live life to the fullest, explore the world, and discover new cultures. The brand embodies the spirit of freedom and boldness, inviting us to step out of our comfort zone to explore new perspectives.

Where does the name KAZARTT come from?

When casual style meets elegance. KAZARTT is the fusion of two English terms: Casual and Smart. The brand is aimed at those who seek to stand out, assert their personality while remaining elegant.

The name KAZARTT is also a nod to the grandmother of the brand's founder, Anne Cassart. She passed away at the age of 100, two years before KAZARTT came into existence.

/OUR MANIFESTO/

Leave Your Mark

At KAZARTT, we encourage you to be yourself and express your own style.

No more dull, boring, and characterless belts. We decided to create belts as a way to express our individuality and personality.

Without leaving a trace

But being yourself doesn't mean being selfish. Our products are made in Spain, in a small-scale workshop specializing in the art of leather for several generations. And we take our environmental responsibility very seriously: we want you to leave your mark on the world, not on the planet.

CELEBRATING AUTHENTICITY

In an era of division and extremes, at KAZARTT, we're not afraid to say it: 'We love you just the way you are.'

SHARING HAPPINESS

Gifts are our favorite language to express affection. Is there a better feeling than succeeding with a gift?

BE YOURSELF

Not to become someone else. But rather, to become the best version of yourself. Because what the world needs is people who have come alive.

/OUR COLLECTION/

Quality leather belts, original and tailored to you.

KAZARTT offers you a collection of adjustable belts with original patterns embossed in quality leather. A variety of colors that break the rules and norms of mainstream fashion.

Our belts are made in Spain, following European environmental standards, and in small quantities.
