

Hello Friends,

Thanks to all who continue to order. All the employees here appreciate your business and say "thanks y'all".

There are still new types of fittings being requested and we like to help with these. It appears that many of our customers have grown tired of Netflix and are resurrecting projects from the past. A good portion of the products we sell are still made in here in Texas. So please remember us next time the need arises, as we can provide quick turnarounds.

Book recommendations:

Fiction (Historical): *The Vexations* by Caitlin Horrocks. An historical fiction based on the life of Erik Satie, who was a classical composer living in Paris at the turn of the 20th century.

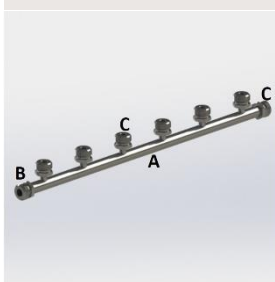

Non-Fiction: *Grant* by Ron Chernow. Mr. Chernow is more famous for his book on Alexander Hamilton; however his portrayal of President Ulysses S. Grant is worth reading. It is not a light read and will take several evenings to wade through all 1000 pages. As some say in the South, "history is not dead, it is still alive today".

Quote: "How do you make a small fortune in the Texas oil market? Start with a large one." - Unknown

Thanks,
Mark & staff
