Wow, we were somewhat taken aback by all the positive feedback from the first newsletter - thank you. (And we thought most of our customers couldn't read - maybe it's just the emails???) It certainly makes doing the second one easier.

For those who received the Jug Growler fitting with only one O-ring - we're sorry, it should have had two. Also the stainless version is in the works.

This edition has several different fittings, somewhat non-related. We just hope to be in this business long enough to understand what these are used for.

Thanks - Mark and staff.
