KNOW YOUR MOUSE

1	Scrolling Wheel	2	DPI / Mode Switch	3	Battery Compartment
4	Optical Sensor	5	ON/OFF Switch	6	Nano USB Receiver

CONNECTION GUIDE

- To start, Insert the AA battery. (Battery is not provided)
- The HushPro Byte is a Dual Mode Mouse with both USB 2.4GHz and Bluetooth Connectivity Options.

- When the mouse turns on, it will, by default, try to connect to the USB device.
- If USB is not connected the mouse will automatically try to connect to a previously paired Bluetooth device.
- If both USB and Bluetooth are connected press the DPI/Switch button for 2 seconds to switch between the 2 devices.
- If no BT device is found as well, the mouse will automatically enter pairing mode and will be ready to connect.
- To connect to a New / Second Bluetooth device, first unpair or disconnect the mouse from the original device.

Connecting via Bluetooth

Make sure Mouse is not connected to USB Device.

Amkette HushPro BT — Search and Connect on your device.

If already paired with a device, Forget or Disconnect from the First device before attempting to connect to a Second Device.

Connecting via USB 2.4GHz

Retrieve the USB Receiver, from the Battery Compartment and Insert it in to a free USB port of your computer.

Windows PC   Mac OSX

POWER SAVING MODE

The Hush Pro Byte wireless mouse uses the energy efficient 2.4GHz wireless radio frequency and Bluetooth v5.1. With its smart power saving feature the mouse automatically enters sleep mode if it is left idle for 3 Minutes. Simply click a button to wake it up.

In addition an ON/OFF switch is provided for total power saving.

3 LEVEL MOUSE SPEED

Designed to meet the needs of different users Hush Pro Byte Mouse comes with a Mouse Speed Button to adjust the sensitivity of the mouse between 3 DPI speed levels 1000 - **1200** (Default) - 1600.
