

# Crafted In-house

**Engineered to Look Like Real Stone at a Fraction of the Weight  
Designed to Create Your Dreamscape**

**Blue Thumb Manufactures  
A Variety of Styles and Shapes  
For Your Perfect Water Garden**

All of our GFRC boulders are made in-house by our trained staff. We search out only the finest boulders from nature to create molds from so we can offer you a very natural and realistic fountain.

Our Handcrafted Rock Fountains are as sturdy as real rock, with a fraction of the weight. Each boulder is molded and prepared by hand at Blue Thumb and follows a careful process ensuring they are ready for your landscape.
