

**DOUBLE OBLIQUE FOUNTAIN W/ FIRE**  
[INSTALLATION INSTRUCTIONS](#)

**Step 1:** Run pump cord through the basin and place the basin over the gas line.

**Step 2:** Attach flexible gas line.

**Step 3:** Run the pump cord, electrical cable and gas line through the PVC pipe and glue PVC pipe into the coupler. Run a bead of silicone around the PVC pipe for extra sealing.

**Step 4:** Level the basin with shims.

**Step 5:** Attach the PVC parts to the pump (2 pieces).

**Step 6:** Place large oblique on top of the pedestal, run electrical and gas line through the top.

**Step 7:** Level the large oblique.

**Step 8:** Attached 5/8" Clear tubing to the ball valve and attach the ball valve to the 1/2" PVC, located inside the small oblique.

**Step 9:** Place the small oblique on top of large oblique and run the tubing down the center and connect to the pump. Level the small oblique with shims and run a thick bead of silicone around the base of the small oblique to avoid water from leaking under it.

**Step 10:** Use 2 part epoxy on the square top piece and adhere to the center of the large oblique on top.

Step 11: Attached flexible gas line to the Vulcan (automatic fire ignitor) and attach electrical wires.

Step 12: Place Vulcan into the top of the small oblique and fill the fountain with water.

**(DO NOT PUT WATER INSIDE WHERE THE VULCAN IS LOCATED!)**

Step 13: Connect electrical cable to the remote box and plug into the wall. Also, plug fountain pump cable into an outlet.

Step 14: Turn gas on and use the remote to turn on/off the Vulcan.

Step 15: Enjoy!

**DANGER**

**CARBON MONOXIDE HAZARD**

This appliance can produce carbon monoxide which has no odor.

Using it in an enclosed area can kill you.

Never use this appliance in an enclosed space such as a camper, tent, car or home.

**DANGER**

If you smell gas:

1. Shut off gas to the appliance
2. Extinguish any open flame.
3. If odor continues, keep away from the appliance and immediately call your gas supplier or fire department.

**WARNING**

Do not store or use gasoline or other flammable vapors and liquids in the vicinity of this or other appliances.

Any LP cylinder not connected for use shall not be stored in the vicinity of this or other appliances.

**WARNING**

Do not leave unattended during use.  
Do not use for cooking.  
Follow all gas leak procedures in this manual prior to operation.

**WARNING**

Improper installation, adjustment, alteration, service or maintenance can cause injury or property damage. Read the installation, operating and maintenance instructions thoroughly before installing or servicing this equipment.

**WARNING**

If the information in these instructions is not followed exactly, a fire or explosion may result causing property damage, personal injury or death.

**FOR YOUR SAFETY**

Do not store or use gasoline or other flammable vapors and liquids in the vicinity of this or other appliances.
