

Compact Multi Purpose Steam Cleaner

Euroflex Vapour M6S is a small size barrel-style steam cleaner which is light weight and easy to use. It is ideal for cleaning in and around the home without using harsh chemical cleaners.

It features a 1200ml stainless steel boiler which generates pressurised steam for up to 40 minutes before refilling.

The Vapour M6S comes with multiple accessories to steam clean most washable surfaces and to refresh soft furnishings.

It includes floor cleaning accessories to wash sealed and smooth hard floor surfaces. Vapour M6S' hot steam softens and loosens dirt on surfaces while the steam pressure lifts away the dirt. It's fast and easy cleaning, in the most pure and natural way.

Features:

Pressurised Steam Stainless Steel Boiler

Refresh Carpet

Lightweight and Easily Portable

Floors Dry Fast

- 24 Months Manufacturer's Warranty

Longer Life

The heating element is fastened external to the boiler. Water does not come into contact with the element which eliminates corrosion and calcium build up.

Energy Efficient and Safe

Vapour M6S is thermostatically controlled to save power costs.

Pre-Made Steam

Drier steam is continually made, then stored under pressure and kept super-heated, ready for immediate release.

Stainless Steel Boiler Construction

All Vapour steam cleaners use a high-grade stainless steel boiler which superheats water. It is built to withstand high temperatures and pressure.
