

Clown Jumping Jack

Instructions:

1. Print out the template.
2. Color the clown as you like.
3. Carefully cut out along the pieces.
4. Punch out the holes indicated by the dotted line with a hole punch.
5. Connect the arms and legs to the body with round paper fasteners or brads.
6. Using a needle and thread, add the thread to the arms and legs as indicated by the black dots, and tie the thread in the middle.

- ORTOPAD®
7. Add a piece of thread to the clown's hat as indicated by the dotted line, and tie in a knot.
 8. Take a longer piece of thread and tie it to the thread for the arms and legs, making sure the thread is longer than the clown's feet.
 9. If you like, you can add a bead to the bottom of the thread.
 10. Now your clown can do jumping jacks!
