

Jack-o-Lantern Luminaries

Light up your Halloween décor with these cute luminaries!

Supplies:

- Clean glass jar of any size, the bigger is better
- Orange or yellow tissue paper
- Decoupage glue or PVA glue watered down
- Black paper
- Paint brush
- Candle or electric tea light

1. Make sure your jars are cleaned properly. Remove any labels.
2. Cut your tissue paper into 2 inch squares.
3. Cover the glass in glue and start applying the tissue paper. You will need 3-4 layers, lighter colors like yellow may need more. Keep adding glue as necessary.
4. Cut out some Jack-o-Lantern faces out of the black paper. Glue them onto the jar.
5. Add another coat of glue over the tissue paper and face, let dry completely.

TIP: Using other tissue paper colors, such as white, green or purple you can also make ghosts, monsters or witches!
