## KNOW YOUR NEIGHBOURHOOD

The best way to ensure we make rational decisions under pressure is to have existing answers. Knowing locations ahead of time, and having a visual reminder is how to ensure family comes together.

Draw a map and use symbols to show your home, school and meeting spot. Ensure all members know the locations.

## KNOW YOUR HOME EXIT POINTS

It may seem redundant, but firmly anchoring the process for a procedure is to educate all family members on the reasons why. Educate all family members on the process and have a visual reminder.

Draw a floor plan to show the different exits for your home and designate the main exit.

**CONTACT NUMBERS** - Talk to your kids, make sure they know the numbers AND have a photocopy **of this list in their backpack.**
