

SCRAP SCRUNCHIE SHOP

These mask lanyards are 12 inches long and easily attach to ear-loop style masks with secure clips. They can be tightened behind the head to any size and comfort level, thereby promoting a better seal to protect the wearer. Just pull the cord lock to the right position. When masks are temporarily removed such as to eat or drink, the lanyard allows the mask to lie around the neck for easy replacement, rather than having to put it away in a bag or pocket. Made of black ribbon, black cord locks, and a random snap design from the chart below.
