The Braidman

The Braidman, Dave Burch, has been making braided fishing line for over 25 years. He doesn't just make braid, he creates situational fishing braids to meet anglers specific needs.

Braid in the USA

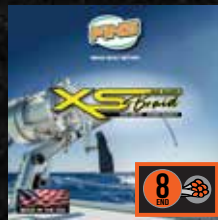

FINS has been researching, engineering, developing, and manufacturing the worlds best fishing braids for decades in the FINS factory in Erlanger, Kentucky.

FINS Braids provides a full range of situational fishing braid in various colors and tensile strengths that offer superior performance in any fishing experience.

Headquartered in Erlanger, KY, BBS Tech, LLC (BBS) was founded in 1994. Over its history, the company has produced products for almost every major international brand and is now the last remaining US-owned and based manufacturer of high-performance braided fishing lines valued by the serious angler.

BBS Tech developed FINS, its own brand of ultra-high-molecular-weight polyethylene high-performance braided fishing line after over 25 years of manufacturing the worlds best high-performance fishing braids.

FINS 40G

COMPOSITE SUPERLINE

FINS 40G is the most unique braid on the market and a true game changer! Don't let the mono-like feel fool you this is a braided line with the highest strength-to-diameter ratio available. Our FINS exclusive 40G over-braiding process weaves 8 high-tenacity fiber bundles around a core bundle of fibers, creating a super-round composite line structure that can fool the hand and eye.

- 9-end composite construction
- Smooth, mono feel without any coatings/wax
- Will never become flat or fluffy
- Highest strength to diameter ratio in the braid market

Braid in the USA.

FINS Braids are proudly made in Erlanger, KY.

FINS 40G

COMPOSITE SUPERLINE

Colors: Green, Chartreuse, Blue, White
Lengths(yds): 150, 300, 500, 1500, 3000

TENSILE Pounds	MONO Equivalent	DIAMETER (Inches/mm)
15	2	.006/0.152
25	4	.008/0.203
45	6	.009/0.229
65	8	.011/0.279
85	10	.012/0.305
100	12	.014/0.356

SPIN5

FIVE-END BRAID

FINS Spin5 is constructed with a unique 5-end braid structure resulting in increased roundness over a 4-end braid pattern. Unlike inferior, stiff, imported braided lines, our FINS Spin5 has just the right amount of body that will ensure it pays off your reel smoothly and through guides without bounce for noticeably longer casts.

- 5-end design is 35% rounder than most 4-end braids
- Thinner diameter by tensile vs. 4-end
- Excellent on spinning, conventional, and baitcasting reels

Braid in the USA.

FINS Braids are proudly made in Erlanger, KY.

SPIN5

FIVE-END BRAID

Colors: Green, Blue, Yellow
Lengths(yds): 150, 300, 1500, 4000

10	1	.004/0.102
15	2	.006/0.152
25	4	.008/0.203
35	8	.010/0.254
50	10	.012/0.305
65	12	.014/0.356

Sling Braid

8-END BRAID

THIN, SILKY, SMOOTH

FINS Sling Braid is a super smooth 8-end braid with an extremely supple feel. Sling Braid is an excellent choice for spinning and baitcasting applications where you need a soft line that will allow for the best action of delicate presentation baits. Available in tensiles from 5 to 65 pound in both chartreuse and light green colors, Sling Braid is engineered and made in America by FINS to offer an 8-end braid for a 4-end price, and is 20% stronger than similar imported braids.

- Smooth, silky 8-end for casting applications
- 20% stronger than most 8-end braids
- Supports the action of artificial presentations

Braid in the USA.

FINS Braids are proudly made in Erlanger, KY.

INFINITY

Never Fade Black

FINS Infinity Braid uses 8 jet black fibers colored at the point of creation. Infinity braid is recognizable by its noticeable supple feel and smooth texture. Infinity is arguably the smoothest and silkiest casting 8-end braided fishing line available.

- Jet black fibers
- Silky, smooth feel
- Great for artificial lure fishing
- Exceptionally quiet in guides

Braid in the USA.

FINS Braids are proudly made in Erlanger, KY.

INFINITY

WindTAMER

PERFORMANCE FISHING BRAID

Windtamer is the most versatile braided fishing line in the entire FINS Braids lineup. From farm ponds to offshore billfishing, Windtamer braid is the go-to choice for any angler looking for braided fishing line that will perform exceptionally well in every fishery encountered.

FINS unique post processing compacts the braid making it more firm and round, which allows Windtamer to pack tightly onto the reel.

- Eliminates wind knots, rod tip wrap, and twisting
- Unusually round 4-end braid
- No waxy feel
- Packs tightly on reels without digging into itself

Braid in the USA.

FINS Braids are proudly made in Erlanger, KY.

WindTAMER

PERFORMANCE FISHING BRAID

Colors: Hi-vis Pink or Yellow, Slate Green, White

WindTAMER

PERFORMANCE FISHING BRAID

Pitch Black

FINS Windtamer Pitch Black Braid is our "Never-Fade Braid". Pitch Black Braid is a variation of our hugely popular Windtamer product, a round firm braid that offers exceptional performance.

Windtamer Pitch Black Braid is made with fibers that will never bleed or lose color. Bass Anglers will have no need for the markers most carry in their tackle box when they use Pitch Black Braid!

- Resist wind knots/ tip wrap/twisting
- Unusually round 4-end braid
- Black color will never rub-off or fade
- No "waxy" feel
- Packs tightly on reels without digging into itself

Braid in the USA.

FINS Braids are proudly made in Erlanger, KY.

XS *Braid* BIG GAME

EXTRA SMOOTH - EXTREME DURABILITY

FINS XS Big Game Braid is a high tenacity 8-end braid post processed to be firm and round while providing the greatest abrasion, abuse and shock resistance found in a braided line. XS is a great choice for trolling in freshwater/saltwater, bottom fishing, punching or any application requiring extreme durability.

- Performs best on conventional reels
- Round and smooth 8-end composite braid
- Durability and abrasion resistance without compromise

FINS Braid in the USA.
FINS Braids are proudly made in Erlanger, KY.

CRAPPIE

BRAIDED FOR CRAPPIE, BLUEGILL, PERCH, SUNFISH

FINS Crappie Braid is specifically engineered for ultralight fishing, finesse jigging and minnow fishing. Crappie Braid offers anglers ultralight diameters paired with unparalleled strength, making it the perfect braided fishing line for crappie, bluegill, perch, sunfish.

- Firm, round shape in an exceptionally small diameter
- Reduces wind knots, tangles, twist
- Color does not fade
- Excellent for ultra-light jigging, as light as 1/64 oz.

Braid in the USA.

FINS Braids are proudly made in Erlanger, KY.

ICE TAMER

ADVANCED ICE SHIELD TECHNOLOGY.

Icetamer Braid is engineered for sub-zero fishing conditions. Zero water absorption is achieved by tightly braiding while using our FINS exclusive resin-infusion process. No water absorption eliminates icing issues.

- Performs as low as 50° below Zero
- Zero Water/ICE absorption
- Micro diameter exceeds tensile rating listed
- Round, firm profile resists: twist, wraps, and wind knots

Braid in the USA.

FINS Braids are proudly made in Erlanger, KY.

ICE TAMER

ADVANCED ICE SHIELD TECHNOLOGY.

Colors: Black, Green, Yellow
Lengths(yds): 50, 150

TENSILE Pounds	MONO Equivalent	DIAMETER (inches/mm)
4	1	.004/0.102
6	1.5	.005/0.127
8	2	.006/0.152

30	8	.011/0.279

HOLLOW CORE

16-END BLUE WATER SPLICABLE BRAID

FINS Hollow Core braids are all made with 16 ends, making them easy to work with when splicing, and when inserting leader material for a smooth knotless transition from mainline to leader. Bluewater anglers will be able to get twice as much line on their reels as compared to using traditional monofilaments.

Tensiles: 60,80,100,130,150,200,250

Colors: White, HI-Vis Yellow, Metered Color

Lengths(yds): 100, 300, 600, 1200, 2400, 4800

TENSILE Pounds	MONO Equivalent	DIAMETER (inches/mm)

200	40	.031/.787
250	50	.040/1.02

DOWNRIGGER

STEEL CABLE ALTERNATIVE WILL NOT KINK OR RUST

FINS Downrigger Braid offers significant advantages over stainless steel cables. FINS DRB eliminates fish startling vibration and greatly reduces blow-back allowing the angler to get down deeper. FINS DRB also will not kink and rust for longer life than stainless steel cables. Downrigger is 200lb+ steel gray fishing braid.

Tensiles: 150,200 Color: Steel Gray

Lengths(yds): 100, 300, 600, 1200, 2400, 4800

TENSILE Pounds	MONO Equivalent	DIAMETER (inches/mm)
150	40	.024/.610
200	50	.028/.711

FINS METERED COLOR

8-END BRAID WITH 25' COLOR SEGMENTS

FINS Metered Colored Braid is marked with a repeating pattern of 4 colors to allow the angler to know exactly how much line is off the reel to place your bait presentation in front of fish known to be suspended up off the bottom. The line has 25-foot color segments of yellow, green, orange, and blue, with a 1-foot white mark in the center of each segment. MCB is an 8-end braid with a soft "hand" and no gummy coating or color transfer.

Tensiles: 10,15,20,30,50,80,100,125,150,200

Lengths(yds): 300, 600, 1200, 2400, 4800
