Potted Citrus & Fruit Trees

Steps for Success!

#1

#2

#3

Use **#1 Baccto Lite Premium Potting Soil** for transplanting trees and bushes into pots. Make sure all containers have adequate drainage holes. If plants are being grown indoors in pots the homeowner may want to consider using a saucer underneath the pot to catch drainage water. **#2 Miracle-Gro Fruit & Citrus Fertilizer Spikes** can be used to feed in containers and in ground plantings. **#3 Bonide Citrus Fruit & Nut Orchard Spray** should be used (outdoors only) for controlling problem insect and fungal pests.
