SPRING SUMMER 2024

J.LINDEBERG

# BRINGING US THE VIBRANT ENERGY OF THE CARIBBEAN ISLANDS, THE SPRING SUMMER 2024 COLLECTION IS DESIGNED TO ADD A BURST OF COLOR AND CONFIDENCE TO ANY GOLF AND OUTDOOR OCCASION.

Drawing inspiration from the lush backdrop of St. Kitts and Nevis, and the rugged terrain of Antigua, the Spring Summer 2024 collection is built to withstand any challenge. Crafted with the latest technical fabrics and a majority of \*sustainably certified materials, the styles are constructed to ensure confidence and comfort – from the course and clubhouse, to the city and beyond.

Made to perform, the collection features several innovative fabrics that'll shield you from the elements. As part of our sustainability policy, the fabrics are certified with either Bluesign or OEKO-TEX 100, and the recycled materials are GRS certified, verifying responsible social, environmental and chemical practices in production. Among the fabric innovations are Schoeller's 3XDRY Bio, a technology that repels water and dries quickly, while still allowing breathability, as well as 3L PRO Waterproof, \*a new waterproof fabric offering ripstop technology for added strength.

Key pieces in the outdoor collections include practical and packable styles that are super lightweight and can be attached to the arm using mesh, making them ideal for hiking. The golf collection features both UV protective styles and several pieces crafted to always keep your body at the ideal temperature, such as the advanced 37.5 technical materials using volcanic ash to regulate the temperature and maintain an optimal 37.5 degrees Celsius. The women's golf collection also features a skirt and cardigan knitted from UV reactive yarn that changes color when exposed to sunlight.

Encouraging us to take on the world with confidence and style, the Spring Summer 2024 sportswear collection is an energetic wardrobe addition, tailored to a life in motion. Lightweight layers, highly technical pieces and bold colors ensure both style and all-day comfort, whether hiking through the rainforest or teeing off on the green in the lush and vibrant nature of the Caribbean Sea.

SPRING SUMMER 2024

J.LINDEBERG

# BRINGING US THE VIBRANT ENERGY OF THE CARIBBEAN ISLANDS, THE SPRING SUMMER 2024 COLLECTION IS DESIGNED TO ADD A BURST OF COLOR AND CONFIDENCE TO ANY GOLF AND OUTDOOR OCCASION.

Drawing inspiration from the lush backdrop of St. Kitts and Nevis, and the rugged terrain of Antigua, the Spring Summer 2024 collection is built to withstand any challenge. Crafted with the latest technical fabrics and a majority of \*sustainably certified materials, the styles are constructed to ensure confidence and comfort – from the course and clubhouse, to the city and beyond.

Made to perform, the collection features several innovative fabrics that'll shield you from the elements. As part of our sustainability policy, the fabrics are certified with either Bluesign or OEKO-TEX 100, and the recycled materials are GRS certified, verifying responsible social, environmental and chemical practices in production. Among the fabric innovations are Schoeller's 3XDRY Bio, a technology that repels water and dries quickly, while still allowing breathability, as well as 3L PRO Waterproof, \*a new waterproof fabric offering ripstop technology for added strength.

Key pieces in the outdoor collections include practical and packable styles that are super lightweight and can be attached to the arm using mesh, making them ideal for hiking. The golf collection features both UV protective styles and several pieces crafted to always keep your body at the ideal temperature, such as the advanced 37.5 technical materials using volcanic ash to regulate the temperature and maintain an optimal 37.5 degrees Celsius. The women's golf collection also features a skirt and cardigan knitted from UV reactive yarn that changes color when exposed to sunlight.

Encouraging us to take on the world with confidence and style, the Spring Summer 2024 sportswear collection is an energetic wardrobe addition, tailored to a life in motion. Lightweight layers, highly technical pieces and bold colors ensure both style and all-day comfort, whether hiking through the rainforest or teeing off on the green in the lush and vibrant nature of the Caribbean Sea.
