What's in the box

1 x Front panel

1 x Mounting braket

1 x Spanner

7 x Nuts

2 x Mounting clips

Before proceeding to attach the front panel, ensure that you have already installed the rear box/sleeve into your wall/fence. To guide you through the process, refer to the instruction sheet that comes along with your rear box/sleeve.

Installation
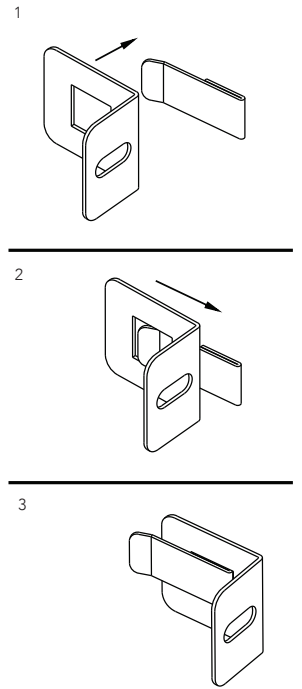

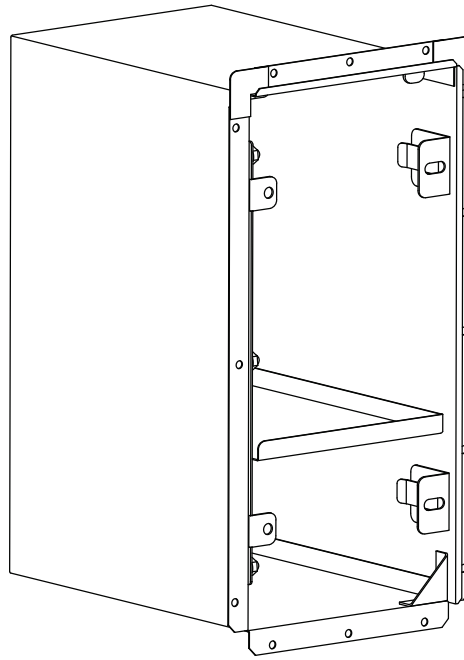

STEP 1

Securely attach the mounting bracket to the three studs using the provided nuts.

STEP 2

Mount the mounting clips on the right side of the rear box/sleeve.
Please follow pictures 1, 2, and 3 for a detailed explanation on how to securely fasten the mounting clips (refer to the illustration on the right).

STEP 3

Fasten the front panel securely using the provided nuts.
