 **EMPACKUSA**

Who We Are

Empack USA is the leading distributor of biodegradable disposables made out of vegetable fibers and biopolymers. Our focus is to create products that feel like plastic, work like plastic, but are environmentally friendly. Our technology is proprietary. We do contract manufacturing for distributors, wholesalers, and brands in almost any industry.

| The Problem | Our Solution |
|--|---|
| Plastic doesn't decompose | Proven biodegradable technology ¹ |
| Plastic in landfills can stay there for hundreds of years | Decomposes in landfills in a matter of months ¹ |
| Plastic pollutes and contaminates the environment | Doesn't pollute or contaminate the environment |

¹ Enhanced biodegradation in a biologically active landfill. ASTM D5511 tests that represent biologically active landfills on representative packages have shown 12.5% biodegradation in 67 days.

** Testing has been performed on representative products & packages but not directly on our straws.

Our Vegetable Fiber Technology

Complies with relevant international standards¹

Biodegradable & toxic-free

FDA approved, certified ASTM, & USDA Biodegradable*

Disposables made from cellulose-rich vegetable fibers
