Power Pack

Model - 12V 6Ah

Series 2

Lithium Ferro Phosphate Battery

Overview

CWD **Power Pack Series 2** is a 6Ah battery that incorporates Lithium Ferro Phosphate technology and is proudly manufactured in the Republic of South Africa. This 6Ah battery is equivalent and a direct replacement to a 12Ah lead-acid battery.

Power Pack Series 2 is capable of charging and discharging at high speeds compared to other types of batteries.

Power Pack Series 2 is rechargeable and has several distinctive features, including:

- Better power density
- Low discharge rate
- Flat discharge curve
- Less heating
- Higher number of charge cycles
- Increased safety

Power Pack Series 2 does not heat up easily and are relatively cooler than other batteries. The chemistry of the battery saves it from thermal runaway, and hence it is considered to be safe for home use.

Power Pack Series 2 batteries are also used as replacements for costly lead-acid batteries. They are well suited for applications that require high-load currents and endurance.

Power Pack Series 2 are easy to store and carry due to their light weight and ability to provide huge amounts of energy.

Power Pack Series 2 has a Battery Management System (BMS) to protect and prolong the battery.

Benefits

- 100% Capacity Available
- Minimum 2000 Cycles
- 6Ah equivalent to 12Ah(Lead Acid)
- 100% Recyclable
- 2 Year Warranty

Description	Specification			
Capacitiy in Ah	6Ah			
Nominal Voltage		12.8v		
Maximum Continuous Discharge Current	1	12 Amps		
Peak Discharge Current (30 sec)	18 Amps			
Maximum Continuous Charge Current		3 Amps		
Short circuit protection	Yes			
Over Voltage Protection	Yes			
Under Voltage Protection	Yes			
Over Current protection	Yes			
Charge Temperature	0°C − 45°C			
Discharge Temperature	-20°C - 45°C			
Weight	760g			
Number of Cycles (minimum)	2000			
Expected Life	5 Years Minimum			
Warranty	2 Years			
Dimensions(mm)	L	W	Н	
	151	65	95
