SCRAPER BLADES • FOR A CLEAN AND SAFE RESULT

Scraper blades - for a clean and safe result

RuplaTec has over 50 years experience in producing various technical rubber and plastic products, both standard and customized products. RuplaTec manufactures rubber and polyurethane scraper blades and accessories for the most commonly used plow systems.

The scraper blades and accessories are used for agricultural purposes, in farmyards, stables or market places. RuplaTec scrapers are designed for the efficient clearance of snow on concrete roadway surfaces or foot- and cycling paths and for the clean and safe keeping of airports.

Why RuplaTec scraper blades?

- A thoroughly tested and proven quality
- The high abrasion and longer service life
- An elastic quality that prevents damage to the sliding surface and reduces noise
- European quality with short delivery times

Markets

RuplaTec belongs to one of the leading companies in production and supply of technical rubber and polyurethane products. We are manufacturers of products for the marine and offshore, dredging, oil and gas, aviation, agricultural and construction industries worldwide.

Central Stock

With its European sales office and central warehouse located nearby the port of Rotterdam in the Netherlands, RuplaTec is synonymous with the best solutions for technical rubber and polyurethane products. European shipping, short lead times and custom solutions.

Service

We have large experience in extrusion, molding and casting of rubber and polyurethane materials and are able to answer to both standard and custom requests properly.

From the production and service facilities, RuplaTec can process custom made products according to customer drawing and large stock in various products combined with our logistics ensures quick delivery.

RUBBER

SCRAPERBLADES

RUBBER SCRAPERBLADES

RUBBER SCRAPER BLADES

Material:	Abrasion resistant SBR / Natural Rubber
Feature:	Good weather resistance
Hardness:	70 ° and 80 ° ± 5 Shore A
Dimensions:	Various sizes
Lengths:	Up to 5000 mm
Mounting:	Provided with mounting holes or slots (on request)

MOULDED RUBBER SCRAPER BLOCKS

Material:	Abrasion resistant SBR / Natural Rubber
Feature:	Good weather resistance
Hardness:	70 ° ± 5 Shore A
Dimensions:	400 x 200 x 50 mm
Mounting:	Provided with slot holes and slots

RUBBER FLAPS

Material:	Abrasion resistant SBR / Natural Rubber
Feature:	Good weather resistance
Hardness:	70 ° and 80 ° ± 5 Shore A
Dimensions:	Various sizes
Lengths:	Up to 5000 mm
Mounting:	Provided with mounting holes or slots (on request)

POLYURETHANE SCRAPERBLADES

POLYURETHANE SCRAPERBLADES

POLYURETHANE SCRAPER BLADES

Material:	High quality Polyurethane
Feature:	Good weather resistance
Hardness:	70 °, 80 ° and 90 ° ± 5 Shore A
Dimensions:	Various sizes
Lengths:	Up to 3000 mm
Mounting:	Provided with mounting holes or slots (on request)

POLYURETHANE PROTECTION BLADES

Material:	High quality Polyurethane
Feature:	Good weather resistance
Hardness:	70 °, 80 ° and 90 ° ± 5 Shore A
Dimensions:	Very diverse according to drawing
Lengths:	Up to 3000 mm
Mounting:	Provided with mounting holes or slots (on request)

POLYURETHANE ABSORBER

Material:	High quality Polyurethane
Feature:	Good weather resistance
Hardness:	90 ° ± 5 Shore A
Dimensions:	Various sizes
Mounting:	By means of molded holes

Large profiles

Mouldings

Bufferblocks

Towing shoes

Piggyback blocks
