**We produce in harmony with nature.**

# Introduction

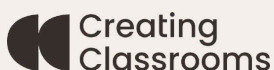

We provide HABA furniture and play equipment that you can enjoy for a very long time. Products are made from high-quality natural raw materials and encourage children's learning and play in an engaging and age-appropriate way.

## HABA

HABA develop products for children to play with and to stimulate their imaginations. HABA recognises the needs of children and aims to make the world more colourful and beautiful because children deserve beauty! HABA strives to improve energy efficiency, environmental protection, and occupational safety in our manufacturing and throughout the entire supply chain.

## HABA Pro

HABA Pro drives an enthusiasm for value and design that offers complete solutions for business and education spaces. Our products guarantee the highest levels of quality, durability and safety.

## **SUSTAINABILITY**

Active environmental protection and sustainable production with short delivery routes, modern manufacturing techniques and natural materials, form the basis of our commercial operation.

## **MADE IN GERMANY**

With environmentally friendly production of our products in Germany, we place great importance on sustainability and the conservation of natural resources.

## **QUALITY & SAFETY**

Our in-house quality assurance is certified by independent testing institutes, we carefully select and control our material suppliers, and follow all standards and guidelines, to guarantee the quality, longevity and safety of all our products.

# OUR PRODUCTS FOR BUSINESS CUSTOMERS

From a small play area to a big adventure world: we develop play and education concepts to meet the needs of children and families in many different environments, as well as special products with therapeutic benefits for both children and adults. From classics made of wood, to play worlds of all sizes, we have the solutions for any children's space!

# HABA PRO

FOR SMALL AND BIG DREAMS

Whether you have a lot of space or just a little, we have the right products (from XS to XL).

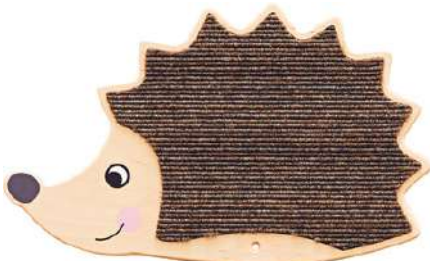

## multi-play tower

Multifunctional play tower with motor skills games for a variety of play on all sides.

## Wall application »Hedgehog«

A tactile hedgehog invites the little ones to a »Forest and Meadow« theme area. High-quality Tretford materials ensure rich haptic experiences.

## wall applique »Tree with mirror«

Lovingly designed tree with a mirror for body perception. Birds, fruit and snails can be moved – developing motor skills.

## grow.upp playhouse »Bird's Nest«

The playhouses from our grow.upp furniture series support motor and sensory needs from children to 6 years with different topics from nature, within an immersive roleplay space.

## CREATIVITY AND IMAGINATION

Children are curious, creative and imaginative – they learn when they play! Our games and play furniture offer to stimulate the imagination, invite discovery, and provide age-appropriate play impulses. They leave freedom for imaginative games alone, in pairs or in a group, whether quietly and reflective, or wild romping! To propose the best solutions, we always consider safety, durability, and low maintenance.

### Game table »Palm Island«

There's plenty of room to play, build and store things on this island. Cleaning up is fun and easy as pie.

### Game object »Ship«

Little sailors go on a long journey here and experience great adventures on the high seas!

## ROOM CONCEPTS FOR INDOOR AND OUTDOOR

Whether children or adults, whether game world or healthy interior design, we have solutions for every space!

### alpinio - movement element

The modular alpinio land of movement concept is from the mountains and inspires and trains big and small in motor skills.

### Terramo outdoor playground

Terramo stands for outdoor playgrounds and premium quality. More than 300 individual components to ensure unlimited climbing and sliding fun in the fresh air.

### set.upp creative and leisure landscapes

The versatile upholstery and room elements offer optimal retreat places to work or relax.

## Timber

Flexible system for versatile movement for every age and target group.

## CONCENTRATION AND MOVEMENT

Being active is fun and does everyone good. Our portfolio offers many climbing and active play solutions to support all ages and abilities. Our products use high-quality materials, carefully processed, GS-certified, securely constructed and installed.

## Snoezelen ("White Space")

Sensory rooms trigger sensory perceptions that are relaxing and contemplative with a developmental and therapeutic effect. Snoezelen is also the ultimate blank canvas space to be transformed by light, colour and sound

## grow.upp landscape

Children can use and explore natural colours and shapes in open-ended and flexible Grow.upp rooms as they investigate the world around them.

## OUR PROJECTS FOR BUSINESS CUSTOMERS

Spaces to play, discover, feel good and be happy! Our projects show how our business partners have succeeded with HABA Pro to make the world a little bit more human – for children, families and people with special needs.

## HABA PRO BUSINESS

Making a business environment, or any public building, more family-friendly can have immediate and long-lasting positive effects, creating a space more welcoming and engaging, as well as reflecting the ethos and image of the organisation.

With HABA Pro, we want to help make the world as a whole a bit more human. Our expertise is built on over and 80 years of experience developing toys, games and furniture for children designing playspaces and room concepts for retail, hospitality and healthcare. In hospitals and therapy centres, we aim to create holistic 'feel-good' places for children and adults to share with medical-therapeutic benefits.

One thing is certain: companies in the business world who use HABA Pro have family friendliness and humanity as a benchmark for their perfect customer experience. This is how a central value about people can become a value-added competitive advantage. Business can be that easy.

## **CITY**

Actively design children's spaces with HABA Pro in zoos, museums, libraries, cultural centres, cinemas, amusement parks, fitness studios, playgrounds and sports facilities.

## **HOSPITALITY**

USE HABA Pro to create play areas in hotels, restaurants, cafés, food courts, youth hostels and on campsites.

## **RETAIL**

Trade better with HABA Pro in shops, shopping malls, hardware stores, furniture stores, outlet centres, car dealerships, pharmacies, bookstores and drugstores.

## **HEALTHCARE**

Holistic healing with HABA Pro in clinics, medical practices, therapy centres, facilities for the disabled, and retirement and nursing homes.

## **TRAVEL**

On the go with HABA Pro at airports, cruise ships, ferries, train stations, service areas, trains, car rental companies, travel agencies and tourist information offices.

## **WORK**

Work-life balance thanks to HABA Pro in parent-child offices, co-working spaces, companies, institutions and agencies.

# HABA PRO CITY

Our cities are complex living spaces and homes for many families with children. Like everyone else, they prefer to spend their free time in spaces that support their needs. The most successful of these places are where leisure and cultural attractions provide and support fun and games. Families are attracted – whether inside or outside – by play areas and playgrounds, and by engaging respite or age appropriate activity spaces.

# HABA PRO HOSPITALITY

Holiday time is family time: by the sea or in the mountains, in the city or the countryside, hotel or camping site. When families with children go on holiday, and a small one wants to take a break, is the place we are visiting child friendly? Only when the question is answered with "yes", do all families members feel equally welcome. Our tip to hosts: Family time is precious. It becomes even more valuable in our plays worlds!

# HABA PRO RETAIL

Shop and play: can they go together? We prove it's possible and take care of it: shopping happiness for everyone. Our play areas and children's adventure worlds fit with both small shops and large shopping malls. Quality play spaces strengthen brand loyalty and ensure more frequent visits, a higher quality shopping experience for families with children, and above all, make happy customers. With a little opportunity to play, a visit to your favourite shop becomes a lovely destination. A large play world can make the shopping mall a magnet for families. Shopping with children is much more relaxed when everyone is busy.

# HABA PRO HEALTHCARE

Feeling good is the best medicine. With the right room concept, a positive atmosphere takes away fear and nervousness, and can support therapies in the hospital and GP environment. When children can pass the time in a play corner when visiting the doctor, the wait goes by in a flash. If you're looking for multifunctional therapy and exercise rooms for well-being, and how they can contribute to healing, consider our product series Alpino, Timber or Snoezelen.

# HABA PRO TRAVEL

On a long journey: leave everyday life behind; that's what many families want. But travelling with children can become a challenge. We have an experience with child-friendly solutions in the travel industry.

# HABA PRO WORK

Fresh ideas are best created in a creative work environment. Providing multifunctional, hybrid work environments that can be flexibly adapted to the individual needs of employees ensures optimal work results. Whether a creative group space for teamwork, or for undisturbed tinkering alone, accompanied by children in the parent-child office or co-working space – our playful room concepts are used wherever work is done.
