MAC300 CROSSBAR ADAPTER KIT

We have specifically designed a leg kit to fit the heavy-duty integrated rails on our MAC300 hard lid range. Made from 5mm alloy and powder coated to match your MAC Utes lid.

The MAC300 Crossbar adapter brackets mount directly into the heavy-duty rails on the MAC300 lid enabling you to mount crossbars without the need to add tracks. They are the perfect addition to your MAC Utes Lid for bike carriers, roof top tents, fishing rod holders, Ski and snowboard carriers and watercraft carriers.

Compatible with major brand cross bars, they are easy to install so you will be off on your next adventure in no time!
