## UTE ACCESSORIES

### QUICK RELEASE MAC300 CROSSBAR ADAPTER KIT

We have designed a quick release leg kit to fit our MAC300 lid range. Made from 5mm stainless steel, 4mm alloy and powder coated to match your MAC Utes lid. These brackets mount so that the cross bars can be easily removed when they are not needed (vs our MAC300 adapter brackets that mount directly onto the hard lid rail).

They are the perfect addition to your MAC300 Lid for bike carriers, roof top tents, fishing rod holders, Ski and snowboard carriers and watercraft carriers.

Compatible with major brand cross bars, they are easy to remove and re-install and so you will be off on your next adventure in no time!
