MAC UTES TRAY DIVIDER

Stop items from sliding around your wellside with the MAC Utes Universal Load Divider. Made with powder coated heavy duty 4mm alloy chequer plate and 140mm thick timber, the Load divider is an adjustable accessory with three positions that allows you to stow items at the rear or front of your wellside, giving you ease of access to items at the rear without them sliding all around the tray.

These are an in stock item and available for immediate supply.
