## Cordless

Pull-Down Mechanism Safe and easy to use  
as just pulling down by hand.

## Remote

Control up to 15 blinds with one remote.  
Set a favourite setting to minimize the work.  
Best for all windows.

## Smart Hub

Control the blinds with Google Home or Alexa.  
Set up a timer or scenes.  
Control with your phone even outside.

# HOME AUTOMATION

Sometimes The Little Things Are The Big Things,  
And Motors Make Life Easier.

We know that manually opening and closing each window blind in your home can be time-consuming and inconvenient. But with motorization, operating your blind is quick and easy.

Use remote control within your home or operate remotely with your smart device.

The Wifi Hub connects smart devices to your window blinds motors so you can use platforms like the **App, Google Home, Amazon Alexa, Siri and more.** With the app, you'll be able to control the blinds by room, set up timers and daily schedules which is great for energy saving and your home looks occupied even when you're not home!

## Time-Based Scheduling

You can set up blinds to automatically open and close based on your daily routine.

## Voice Commands

You can easily control the blinds by using your smartphone, AI speaker, or any compatible smart devices.

# SOLAR SHADES

Solar shades are window coverings made from specially designed fabric that filters sunlight, blocks UV rays, and reduces glare while maintaining a view to the outside.

They offer energy efficiency by regulating temperature, preventing furniture fading, and reducing cooling costs. Advantages like these make solar shades a popular choice for homes and offices seeking to control sunlight without sacrificing the view.
