## About

weBoost brings you seamless, uninterrupted cellular connectivity in your parked RV. Your cell phone is an essential part of your life. You depend on it to stay connected to everything important - family, friends, work.

The weBoost RV 4G™ cellular signal booster is a simple, effective solution to maintain continuous communication for all cellular-enabled devices – smartphones, tablets, etc - in your parked RV.

Installation is straightforward and can be completed with minimal tools. A step-by-step video guides you through connecting two antennas to the booster. The antennas communicate with cellular devices and the cell tower for the strongest, most powerful signal possible.

weBoost amplifies signals to improve coverage—including 4G LTE— no matter your cellular carrier in the United States and Canada. The RV 4G comfortably handles multiple simultaneous connections across multiple carriers, providing effortless voice and data communications for all users.

weBoost's RV 4G comes with a 2-year warranty.

## Installation

- 1 Receives signal:** The powerful antenna reaches out to access a voice and 3G, 4G, and LTE data signal, and delivers it to the booster.
- 2 Boost signal:** The booster receives the signal, amplifies it, and serves as a relay between your phone and the nearest cell tower.
- 3 Broadcasts signal:** Your devices get a stronger signal, and calls and data are fed through the booster back to the network.
