Paul Kempisty, LAc

Paul Kempisty LAc is a licensed acupuncturist and board certified herbalist. He has studied Traditional Chinese Medicine in the United States and in China with a special focus on oncology and gynecology. Mr. Kempisty has also practiced and taught Reiki and medical aromatherapy for more than 15 years.

Mr. Kempisty integrates the scientific advances of modern medicine with the wisdom of ancient Eastern medicine to make both more effective and accessible to his patients. This combination of Western and Eastern approaches gives him the opportunity to guest lecture at medical conventions and at the

Mount Sinai School of Medicine.

In his private practice in Manhattan Mr. Kempisty treats patients for pain management, functional disorders, and gynecology and fertility issues as well as with complementary care during and after traditional cancer treatments. He develops a comprehensive treatment and personal education plan for his patients to help them achieve radiant health.
