Advanced Design
Is Truly Adept At
Bringing On The
Burn!**

Assault Fitness Products is part of the LifeCORE family of fitness companies

Thank you so much for your interest in the Assault Airbike. Whether you are a novice exerciser or a competitive athlete, we wish you the best on your journey toward better health and fitness!

The Assault Fitness Products, Vista California headquarters is just a few minutes north of San Diego. With nearly two decades in the fitness industry, our biggest asset as a manufacturer is our experience as fitness retailers. In the early 90's we started out as owner/operators of our very own fitness retail stores. We conduct business now the same way we did then—with the consistent goal of impeccable customer service.

The management/development team of Assault Fitness Products spent many years on the showroom floor, developing relationships with you, the consumer. We listened to your needs, your health and fitness goals, your likes and dislikes about certain products and then we were there to service the product after the sale. This gave us incredible insight and experience that goes into the development of every Assault Fitness Product created.

Our goal is and always will be to make the highest quality equipment that is easy to use, durable and a great value to the consumer. We also understand the importance of customer service after the sale. We've gone through painstaking efforts to build the most durable equipment on the market, backed by the best warranty on the market, which is backed by our outstanding customer service department! Stop by a retailer near you and experience the Assault Fitness Products Difference!

Thank you for your support.
