

ALPE PRAGAS

Product Catalogue

Finest Fruits

Where experience meets innovation and goodness meets refinement, Stefan Gruber certainly has something to do with it. The family business prides itself on its vision, personal commitment and teamwork. Today, after 25 years, the most important thing is to produce quality at the highest level and to show respect for the resources we have been given, in order to preserve the world as it is for future generations.

Cultivation

CULTIVATION – a crucial factor for quality products. Because only when the fruits have the right time to ripen do they develop their full flavour. This is fundamental for us at ALPE PRAGAS. For the berries that grow in our fields and the fruits provided by our partners, the best quality is the number one criterion.

People

PEOPLE – The success of a company is given by the passion of the people who work there. That's why ALPE PRAGAS is so proud of its fruit experts, who work side by side, always keeping precision and quality under control. Only in this way can we obtain exclusive "Fruit Delights".

Fruit

FRUIT – carefully collected, washed and selected ... all by hand. So only the best fruits end up in the jar. Nothing escapes the watchful eye of ALPE PRAGAS employees. Using the best quality fruit is a prerogative to obtain an excellent end product.

Product

THE END PRODUCT - ALPE PRAGAS, moments of pure ecstasy for the palate. Because the highest quality guarantees products without artificial additives, flavours, colourings and preservatives, the best quality ingredients and delicate and innovative processing.

Fruit Preserves Marmalades

75% FRUIT

VEGAN

GLUTEN-FREE

Fresh, fruity, genuine! That's what our Fruit preserves are like. And of course, they are made with the highest quality ingredients and contain no colourings or preservatives! Our fruit preserves are based on old recipes still very much in vogue, and are not only delicious but also low in calories.

CHARACTERISTICS:

INGREDIENTS: 75 % pure fruit, sugar, lemon juice, gelling agent: apple pectin

PRESERVABILITY: 24 months from production, store in a cool, dark place

IDEAL CONSUMPTION: to be spread on bread or with muesli,
for brunch or to be enjoyed simply from the spoon

AFTER OPENING: keep in the refrigerator and use within 14 days

ADDED VALUE: high fruit content, low sugar, no artificial additives, low calories

GLUTEN-FREE AND VEGAN
