

Polaris RZR PRO-XP Receiver Hitch Mount

1097A001

Maximum Tow Limit: 1500lbs

Thank you for purchasing our product. Below is a brief description on installation.

1. Raise rear of vehicle safely in the air. Rear tires still touching the ground will help.
2. Remove rear plastic fascia and rear bumper if equipped.
3. Remove all 4 radius rod bolts and nuts. Discard factory radius rod plate.
4. Install our receiver mount with the receiver tube towards the top of the machine.
5. Re-use factory hardware and torque to factory spec.
6. Re-install rear fascia and rear bumper. The included hardware is for the lower mounting holes on fascia.
