

## **Clarke's Safety Mirrors Ltd**

### **Stainless Steel Mirror**

#### **Operation & Maintenance (O&M) Manual**

##### **Storage**

- Ensure that the mirror is stored flat on a level surface.
- Do not store mirrors near sources of heat.
- Ensure that the storage area is dry.
- The mirrors should be stored in a safe location where they will not be damaged.

##### **Installation**

- Do not over tighten the screws. This can lead to optical distortion.
- Ensure that the substrate is flat.
- Remove protective covering after installation to avoid damage.

##### **Cleaning**

- Use a mild soap solution and a soft cloth.
- Ensure that the cloth is clean and does not contain any sharp debris that could cause damage to the mirror.

*Structural calculations and the adherence to planning/building control regulations are the responsibility of the customer.*
