Clarke's Safety Mirrors – About Us

Safe Mirrors for All Environments

At Clarke's Safety Mirrors Ltd, we have supplied safety mirrors to Education, Health, Correctional, Care and other safety conscious industries since 1997. We offer a range of mirrors with durability levels from impact resistant to virtually unbreakable.

We have grown through our knowledge and understanding of the industry. Our team has developed close working relationships with our customers and the industries that we supply. We are constantly developing our products and services to meet the requirements of our customers. This enables us to remain market leaders in this demanding, niche and safety conscious industry.

Mirrors For Mental Health Applications

We manufacture and supply a range of mirrors suitable for use in the mental health and corrections environment. Our range of ligature resistant mirrors have been specially designed to minimize the risk of self-harm & harm to others.

We offer a made to measure service for many of our products. As the manufacturer, we can offer custom specifications to meet your requirements.

Flat Ligature Resistant Safety Mirrors

A virtually unbreakable polycarbonate safety mirror designed specifically for use in the harsh corrections and mental health environment.

These virtually unbreakable polycarbonate mirrors are supplied with rounded corners and a 3mm radius edge to minimise ligature risk. This product is suitable for environments where there is a risk of self-harm or harm to others.

Key Information:

- Ligature resistant design. These mirrors feature 25mm radius corners* and a 3mm edge radius, leaving a 3mm flat section to facilitate anti-pick mastic.
- Made to measure service available.
- Manufactured from high quality 6mm thick polycarbonate - making these mirrors virtually unbreakable.
- Supplied with a scratch resistant coating to improve abrasion resistance and extend product life.
- Standard fixings include countersunk stainless steel anti-tamper fixings and very high bond double sided tape. Mirrors can be supplied without the tape to allow for adhesive fixing.
- Circular & oval mirrors available.

* Applicable to rectangular mirrors only.

Framed Ligature Resistant Safety Mirrors

A virtually unbreakable polycarbonate mirror in a ligature resistant PVC frame. Designed specifically for use in the harsh corrections and mental health environment.

These mirrors are both aesthetically pleasing and virtually unbreakable. The frame is manufactured with a radius edge to minimize the ligature risk, making these mirrors suitable for mental health applications.

Key Information:

- Ligature resistant design. The frame is manufactured from 9mm white PVC. It features 25mm radius corners* and a radius edge. A 3mm flat section around the frame facilitates anti-pick mastic.
- Made to measure service available.
- The robust design reduces the potential for self-harm or harm to others. The frame is manufactured from a single component for maximum durability.
- The polycarbonate mirror insert is supplied with a scratch resistant coating to improve abrasion resistance and extend product life.
- The mirror frame is designed to be fully bonded to the substrate and anti-pick mastic to be applied to the perimeter.
- These mirrors are supplied with countersunk stainless steel anti-tamper fixings for additional security.
- Circular & oval mirrors available.

* Applicable to rectangular mirrors only.
